DONATIONS MADE BY SRIMATI BISHEWSHARY DEVI CHOWDHURANI, ZEMINDAR OF GAURIPORE IN MYMENSINGH.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, 19th the April 1887.

RESOLUTION.

READ—

An endorsement from the Director of Public Instruction, No. 2515, dated 7th April 1887, forwarding a copy of a letter from the Inspector of Schools, Eastern Circle, on the subject of the two donations made by Srimati Bishewshary Devi Chowdhurani, zemindar of Gauripore in Mymensingh.

In Government Resolution, dated 15th February 1887, acknowledgment was made of the liberal donation of Rs. 1,000 made by Srimati Bishewshary Devi Chowdhurani, zemindar of Gauripore in Mymensingh, in support of the Eden Female School at Dacca. This lady has now made two additional donations—one of Rs. 800 for erecting a corrugated iron roofed house for the grant-in-aid Middle English School at Iswarganj, and another of Rs. 500 in aid of the building fund of the Jamalpore Donogh High School. The Lieutenant-Governor tenders his thanks to Srimati Bishewshary Devi Chowdhurani for her liberality.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Director of Public Instruction for information and communication to the donor.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

CALCUTTA, *the 18th April* 1887.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 15TH OF APRIL 1887.

THE meteorology of the past week has been marked by excessive pressure, temperature considerably below the average, the prevalence of easterly winds throughout Behar and Bengal, and the occurrence of moderately heavy rain in Behar.

The disturbance which gave rain to the province during the last two or three days of the previous week continued until Saturday evening, on which day rain fell generally in Behar and North Bengal. The barometer, which had risen during the disturbance, then began to fall, at first slowly, until the 12th. During this interval some local storms occurred in different parts of the province, and gave local showers of little importance. The 12th was practically rainless. During this period the winds, instead of returning to their normal direction (west) in Behar, continued to blow steadily from the east, and the air was consequently much damper than is usual in April over the interior of the province. A rapid fall of the barometer commenced on the afternoon of the 12th, and was accompanied by a considerable increase of the southerly winds in the coast districts. This action extended to the interior on the 13th, when the easterly winds in Behar were from two to five times as strong as on the 11th and 12th, and caused slight atmospheric disturbance, which was showed by the occurrence of thunder-storms and nor'-westers on the 14th in the neighbourhood of the hills in North Bengal and Behar, and over the hill districts of the Southal Pergunnahs, and the neighbouring districts of South-West Bengal and Chutia Nagpur. The disturbance extended seawards on the 15th, and gave thunder-storms with moderate rain in Orissa and South-West Bengal.

The barometer commenced to rise again on the 14th and was rising slowly at the end of the week.

The prevalence of easterly winds in Behar, and the occurrence of rain in unusual amounts in Behar, reduced the temperature very considerably throughout the province, and the mean temperature was 6° below the average in Central Behar. The reduction of temperature diminished southwards and eastwards, and was least in East Bengal and Orissa, where it slightly exceeded 2°. It appears to be almost certain that the abnormal weather of the present season is chiefly, if not entirely, due to the unusually heavy snowfall during the winter in the Sikkim and Nepaul Himalayas.

Pressure.—The barometer fell steadily, but slowly, over the greater part of the province until the 12th. During the next 24 hours pressure decreased briskly, and the southerly winds in the coast districts increased in force. The fall from the 9th to the 13th was least in East Bengal, where it was ·07″, and greatest in West Bengal and Behar, where it slightly exceeded ·14″. The barometer rose rather rapidly on the 14th and 15th, and at the end of the week was from ·01″ to ·03″ lower than at the beginning of the week.

Pressure was considerably above the average during the week. The mean pressure of the week was ·06″ in excess for Orissa, ·09″ over the greater part of South and Central Bengal, ·04″ in Chutia Nagpur, ·05″ in South Behar, 09″ in Central Behar, and ·11″ in North Behar. It would hence appear that this feature of excessive pressure was most marked over and near the Himalayan area, and decreased in amount southwards.

Temperature.—The past week has been characterised by diminished temperature. Temperature was unusually low at the commencement of the week. It increased steadily until the 13th or 14th, the increase being as marked in the night as in the day temperature, and averaged 4° in Bengal and 6° in Behar. The thunder-storms of the 14th and 15th cooled the air considerably over the whole of the province, excepting East Bengal. The mean daily maximum temperature was 2° below the average in Orissa and East Bengal, 4° in Chutia Nagpur, and from 6° to 9° in Behar and South-West Bengal. The minimum night temperature was from 2½° to 4° below the corresponding normal temperature of the period. The mean temperature of the week was 1·6° in defect in East Bengal, 2·3° in Orissa, 5° in South-West Bengal and North Behar, and 6° in South Behar. Chyeoassa and Cuttack were the only stations at which maximum temperatures exceeding 100° were registered during the week. Cuttack registered the highest temperature of the week, viz 104·4°. The following table gives temperature data of the week for eight representative stations in the different divisions of the province:—

Rainfall.—The rainfall of the week was above the average in all divisions except East Bengal. The largest amounts were received in Behar and South-West Bengal. It was due in the earlier part of the week to the disturbance of the previous week, which lasted until the evening of the 9th. The second burst of rainfall was due to the disturbance and series of thunder storms which followed the rapid decline of the barometer on the 13th.

The rainfall of the 9th was confined to Orissa, North Bengal (excepting the districts bordering on East Bengal), North and South Behar, and the Midnapore districts of South-West Bengal; it was heaviest and most general in Behar. South Behar received an average of half an inch on that day. The largest amounts recorded were 1·96 inches at Soopool (Bhagulpore district), and 1·26 inches at Monghyr.

Local showers were received on the 10th in the Hooghly, Bancoora, Pubna, and Bogra districts; on the 11th in Backergunge and Noakholly; on the 13th at a few stations in East Bengal, and near the hills in North Bengal and North Behar.

The rainfall of the 14th was much more general and extended over the Burdwan, Bancoora, Beerbhoom, Nuddea, and Moorshedabad districts of South-West Bengal, the Sonthal Pergunnahs, Manbhoom, the whole of North Behar (excluding Sarun) and the greater part of North Bengal. Ramepore Haut recorded the largest fall on this day, 2 59 inches. On the 15th thunder-storms occurred in Orissa, South-West Bengal (excepting Moorshedabad) and the northern districts of North Bengal. Bhuddruck in Orissa received 2·05 inches, the largest amount recorded on that day. The average district rainfall for the week slightly exceeded one inch in the Burdwan, Bancoora, and Beerbhoom districts, where nor'-westers occurred with unusual frequency during the week, and in the Darjeeling and Purneah districts. The only districts which received no rain during the week were Chittagong and Singbhoom.

South-West Bengal received an average of eight-tenths of an inch during the week, North Behar seven-tenths, South Behar five-tenths, Orissa and North Bengal four-tenths, East Bengal two-tenths, and Chutia Nagpur one-tenth.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 15th of April 1887:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE returns from the principal Municipalities in Bengal (excepting Bhagulpore, from which no return was received up to date), for the week ending 2nd April 1887, present the following results :—

1 That the birth rate in these Municipalities amounted to 17·8 per 1,000 of population against 18·8 per 1,000 during the preceding week ending 26th March, indicating a retrogression in the registration of births, and the death-rate to 28·7 per 1,000 against very nearly the same proportion, viz 28 3 per 1,000.

2. That the following Municipalities furnished the highest proportions of births and deaths :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Chittagong	35·2	Gya	90·9
Durbhanga	33·0	Suburbs of Calcutta	50·7
Comillah	30·8	Utterpara	47·3
Monghyr	29·8	Serampore	43·2
Gya	29·4	Durbhanga	29 1

3. That the mortality from the several death-causes was as follows, in comparison with that in the preceding week :—

	Ratio per *mille* during the weeks ending—	
	2nd April 1887.	26th March 1887.
Cholera	11 7	8·5
Small-pox	·2	·04
Fever	8 6	9·9
Bowel-complaints	2·0	2·8
Injury	·5	·4
Other causes	5·6	6·6

The above figures indicate that there was a considerable enhancement in the death-rate from cholera, with a sensible diminution in those from fever, bowel-complaints, and the maladies classed under the head of "Other causes."

4. That while bowel-complaints and injury were nowhere noticeably severe, and small-pox proved conspicuously fatal in the Gya town, viz, at 2 7 per 1,000 of population, and fever in the Beauleah Municipality, viz. at 26·3 per 1,000 of population, cholera and "other causes" caused the highest mortality in the following Municipalities :—

Cholera.	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Gya	59·4	Serampore	13·7
Utterpara	37·7	Gya	13·0

Durbhanga	11 0		
Puri	10·5		
Hughli	8·0		
Howrah	6 3

5. That the death-rates in relation to *Sex*, *Class* and *Age* stood as follows :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains, as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorised form of age classification.

Increases.

Betelnuts ... ... 313 tons.
For British Burmah.

Grain and pulse ... ... 694 tons.
Crops good in this district.

Jute ... ... 6,770 tons.
Chiefly from Northern Bengal State Railway.

Wood ... . 355 tons.
Ordinary fluctuations.

Decreases.

Coal and coke ... ... 1,461 tons.
The principal traffic under this head is on account of the railway and steamer services. Despatches of coal are made as requirements arise, and fluctuations therein are not subject to market influences.

Rice ... ... 1,461 tons.
The rice market at the port is in a depressed condition; very low rates prevailing.

Hides ... ... 315 tons.
Decrease due to ordinary fluctuation.

Metals ... ...
Ordinary fluctuations.

Railway materials ... ...
The decrease is due to the completion of the Assam-Behar State Railway, and of the doubling of the line between Calcutta and Naihati.

Oilseeds ... ... 308 tons.
Ordinary fluctuation.

Sugar ... ...
Low prices prevail.

FOREST DEPARTMENT,—BENGAL.

The 25th April 1887.—With reference to the notifications, dated 9th March 1886, 12th June 1886, and 10th August 1886, published in the *Calcutta Gazettes* (Part I), of 10th March 1886, 16th June 1886, and 11th August 1886, at pages 194, 719, and 917, respectively, giving the list of revenue stations in the Sunderbans Forest Division, the Lieutenant-Governor is pleased to notify that revenue station No. 23, Haltora, has been abandoned, and that a new revenue station No. 23, Suputi, has been opened with effect from the 1st April 1887.

Note.—The Suputi revenue station is situated on the left bank of the Suputi river, near the junction of the Suputi or Boroborni river with the Puncassea or Dhumar river, the junction being locally known as the Satmohona.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 26th April 1887.—With effect from the 1st April 1887, the forest charges hitherto known as the Julpigori and Buxa Forest Divisions will form one division to be called the Julpigori Forest Division.

The following postings of officers are sanctioned, with effect from the 1st April 1887:—

Mr. R. L. Heinig, Assistant Conservator of Forests, to be in charge of the Julpigori Forest Division and of the Buxa Forest sub-division of that division.

Mr. H. D D. French, Assistant Conservator of Forests, to be in charge of the Julpigori Forest sub-division of that division.

P. NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 22nd April 1887.—The Board of Revenue, Lower Provinces, having submitted for consideration by the Lieutenant-Governor of Bengal a report by the Collector of Beerbhoom, under section 11 of the Bengal Embankment Act II (B.C.) of 1882, on an application made for the repair and strengthening of the Amjola embankment in lot Shahpore, towji No. 53, in the district of Beerbhoom, at an estimated cost of Rs 883 (eight hundred and eighty-three), to be recovered under Part VI of the Bengal Embankment Act II of 1882, His Honour is pleased, under the provisions of section 14 of the aforesaid Act, to order that the embankment shall be repaired and strengthened in the manner proposed in the said report.

P NOLAN,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 20th April 1887.—Baboo Sarat Chandra Das, Settlement Deputy Collector, Tipperah, is appointed to be Deputy Collector of Income-tax in the district of Tipperah, in addition to his present duties, and, under section 40 of Act II of 1886, is vested with the powers of a Collector under the Act.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 26th April 1887.—It is hereby notified, under section 5 of Act III (B.C.) of 1887, that Mr. J. L. Mackay, of Messrs. Mackinnon, Mackenzie & Co., Calcutta, has been elected by the Bengal Chamber of Commerce, under clause 1, section X of the said Act, to be a Commissioner for making improvements in the Port of Calcutta, *vice* the Hon'ble D. [First Publication.]
NOTIFICATION.

The 26th April 1887.—The following Notice to Mariners is published for general information.

COLMAN MACAULAY,
Secretary to the Govt of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS—(No 21.)

EAST COAST OF INDIA.

BAY OF BENGAL.

MADRAS COAST.

THE following information has been received from Commander Carpenter, R. N., in charge of the India Marine Survey :—

Rockingham Patches.—Lying close off the Coast, 25 miles South of Madras, consist of a few rocky heads inside the 10-fathom line. The shoalest water found on them was 11 feet and the outermost danger, 8¼ fathoms rock, lies on the following bearings, at one-and-a-quarter miles off the shore :—

Red light tower ..	. S W by S.,	distant	5¼ miles.
Tripalur Hill ...	. . N. W. by W.	„	4¼ „
Extreme of Covelam point	. N. ¼ E.	„	6 „
Finger Peak ...	... S. W. by W.¾ W.	„	11¾ „

Vessels should not get into less than 12 fathoms in passing this danger. Tripalur Hill is low, and has a temple on it that looks like a bungalow.

Finger Peak, which is not conspicuous when bearing northward of West, is the southernmost part of all the high land visible.

The Red light tower is a conspicuous object by day. The distance off shore judged by eye is very deceptive.

Pulicat shoals.—The 4-fathom mud bank reported by the S. S *Clan Mackintosh*, in June 1884, to exist in the vicinity of these shoals, and six miles off the land, was lately searched for in vain by H. M. I. M. S. *Investigator*, and may be removed from the charts.

Bearings are magnetic.—See Admiralty Charts, Coromandel Coast, Sheets III and IV, Nos 71*c* and 71*d*.

By direction of the Government of Bengal,
ARTHUR W. STIFFE, *Captain*, I M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 21st April* 1887.

No. ST—1, dated Calcutta, the 1st April 1887.

From—E. T. ATKINSON, Esq., Accountant-General, Bengal,
To—The Secretary to the Government of Bengal, Financial Department.

PORT OF GOPALPUR.

Red light on pier head.

WITH reference to this Department Notice to Mariners, No. 17, dated 31st March 1887, relative to the exhibition of the red light on the pier head at the port of Gopalpúr, the Port Officer, Madras, has given further notice that the light will be visible in every direction seaward. The pier works have now extended 700 feet seaward and the depth of water at L. W F. C. is from 10 to 12 feet. Nearly the same depth will be found when the pier is completed.

The light will be moved seaward as the pier extends, and will mark the extreme end.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

NOTIFICATION.

The 12th April 1887.—The following Notice to Mariners is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS—(No. 19).

BAY OF BENGAL.

CHITTAGONG COAST.

(1) *South Patches.*

THE following information has been received from Commander Alfred Carpenter, R.N., in charge of the Marine Survey of India:—

At an examination of the South Patches made lately by H. M. I. M. S. *Investigator*, only 7 feet of water was found over a ridge about one cable in extent lying S. S. E. distant ¾ mile from the Whistling buoy. There is 2½ fathoms marked on the present Admiralty Charts.

(2) *The Megna flats.*

A survey having been made of the shoal flats off the Sunderbuns between longitudes 90° and 91° 30′ E., Commander Carpenter reports that no great extension of the banks (3-fathom line) has taken place since the old surveys. A shoal of 15 to 18 feet has, however, formed in latitude 21° 58′ N., longitude 91° 26′ 30″ E. The elbow of shoal water depicted on the charts in longitude 90° 18′ E. does not extend farther South than latitude 21° 24′ N.

Vessels making Chittagong should make certain of passing to westward of the South Patches, standing to north-westward until in 6 fathoms water (reduced). The lead and the ground-log will then enable them to follow up the 6-fathom line until in sight of Kutubdeah or Norman Point lights, it being impossible to get on to the South Patches without first crossing over 10 fathoms of water. It is H. W. F and C. at Kutubdeah at XII*h.* 00*m.*, springs rise 15 feet, Neaps rise 10 feet. The tide wave at the elbow in longitude 90° 18′ E. is two hours earlier than Kutubdeah at springs, and half an hour earlier at neaps.

Variation 3° Easterly in 1887.

This notice affects Admiralty Charts 859, Mutlah river to Elephant Point; 829, Coconada to Bassein; and 70, Bay of Bengal.

By direction of the Government of Bengal,

EATON W. PETLEY,
Deputy Conservator of the Port,
for Port Officer of Calcutta.

Yearly Examination for Fourth Grade Accountants.

THE yearly examination of candidates for the fourth grade of Accountant, Public Works Department, will be held at the Government Engineering College, Seebpore, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Vide rules below—

SUBJECTS			Full marks.	Minimum passing marks.
Writing (neatness, clearness and rapidity)	...		100	50
Dictation (spelling, punctuation, &c.)		...	100	50
Arithmetic (whole course)	...	...	240	160
Mensuration (*a*) (whole book)	...	...	60	30
Book-keeping (*b*) (mercantile)	...	...	100	50
			600	400
				Minimum required in all papers collectively.

* The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burmah only. Candidates will not be examined in any of the Calcutta offices.

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10, and the following certificates. Certificates may be submitted in original or true copies, attested by an officer of the Engineer or Accounts Branch, but no certificate will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).

(2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ).

(3) Certificate that the application is in candidate's handwriting. It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons, who are already employed in the department.

DISTRICT ROAD FUND.

NOTIFICATION No. 137.

The 23rd April 1887.

THE accounts and reports of the Road Committees of the districts of Monghyr, Bhagulpore, Purneah, Maldah, and the Sonthal Pergunnahs for the cess year 1885-86, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

W B BESTIC,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 219, dated Monghyr, the 19th January 1887.

From—HERBERT MOSLEY, Esq. Chairman, District Road Committee, Monghyr,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honour to submit the Annual Accounts and Administration Report of District Road Fund in this district for the cess year 1885-86.

2. **There were altogether seven meetings held during the year, of which six meetings were attended by a sufficient number of members; except in one, there was not a quorum. The attendance of the mofussil members, as heretofore, was not satisfactory. The names of certain members have been removed from the list for their non-attendance, and the attention of the existing members has been drawn to section 115 of the Road Cess Act, to ensure a better attendance in future.

The attendance of the members of the Branch Committees has not been favourably reported on by the Chairmen of the Branch Committees. In the Jamooe sub-division, out of the 14 members in the list, eight of them did not attend any meeting during the year, and quorums were formed in three meetings only out of the six meetings held. In the Begoosarai sub-division, none of the European members attended any meeting during the year, except one gentleman, who was present on one occasion. But it appears that they are always willing to render assistance, as heretofore, by undertaking the maintenance and repairs of several village roads in their respective jurisdictions. Some of these gentlemen have also volunteered to undertake the repairs of certain district roads this year, in addition to the village roads made over to them by the Branch Commitee.

3. The working of the Collection Department has been separately reported to you by the Collector. The result of the collection was on the whole satisfactory, the percentage of the collections having amounted to 98 9 per cent. on the demands. The introduction of the certificate operation has been the most successful remedy for the speedy realisation of road cess arrears. Most part of the year's demand has been collected.

4. Necessary repairs were carried out to all existing roads and bridges, and they were maintained in fair order.

5 The following is a list of the original works executed during the year. Some of these works were in progress from former years, and some undertaken and completed within the year:—

(1) Constructing Munsee to Bucktiarpore.
(2). Ditto Koporia to Sonbarsa.
(3). Ditto Baro feeder road.
(4). Ditto Billow to Chowara.

(5). Raising Ganges Ghât to Rasidpore.
(6). Ditto Khagria to Gogri.
(7). Ditto and bridging Bucktiarpore to Bulhee.
(8). Ditto ditto Chapram to Moraghat.
(9). Ditto ditto Jamooe to Betya.
(10). Bridging Dhorarah to Laheta.
(11). Ditto (additional waterway) Ramgarh road.
(12) Constructing Anjun causeway, Jamooe to Malhepore road.

None of these works calls for any special comment, as most of them were in progress from former years. Much has been said of them in previous reports. The most important of these works is the completion of a high road from Munsee to Bucktiarpore, generally termed the "Nepal road." This is the heaviest and most expensive work the Committee have ever undertaken, and the road was completed according to estimate, and opened to traffic; but the heavy floods of last year caused damages in certain portions of this road on account of insufficient waterway, and an estimate is in course of preparation for remedying this want. This road runs through a country which in the rains becomes a vast sheet of water in which wheel and foot communication is interrupted for many months together. It terminates at the extreme northern border of this district, and thence is under the Bhaugulpore Road Cess Committee, and runs to the Nepal frontier. On the completion of the embanked road from Khagria to Gogri, which joins the Nepal road at Munsee (the starting-point of the Nepal road), there will be one continuous link of roads from the other side of the river opposite Monghyr to the Nepal Terai. An estimate amounting to Rs. 7,000 has been sanctioned for planting trees on this road, and this work most probably will be undertaken during the next rains.

6. The next work which needs any mention is the converting of Ganges Ghât to Rasidpore (Tirhoot road) into an embankment. This work seems to have been intended to make the road serve as a bund against the spill of the river Ganges, and is said to have successfully withstood heavy floods of last year. Every precaution was taken to preserve the bund from injury, and the efforts were successful. A small breach about 100 feet wide was made in one place, but it was repaired as soon as the water subsided. But I have considerable doubts as to the advisability of the work, and am making enquiries about it. I have had many complaints, and from personal observation these complaints seem reasonable.

7. All other new works completed during the year have been generally useful, except the Anjun causeway on the Jamooe-Malhepore road, which was constructed with a view to give easy passage to wheeled traffic, but could not withstand the violent rush of the hill stream on which it was built.

8. A certain sum was spent last year in demarcating boundary lines of the existing roads, and provision has also been made in the current year's budget for the above purpose. The work is progressing, and in a few years boundary lines will be drawn on most of the existing important roads.

9. *Tree-planting*.—Tree-planting has been carried out on the roads mentioned* on the margin under five years' contract system. The state of the trees is not always good. The period of five years' contract having expired on the 30th September last, the Committee have proposed to prolong the contracts for a further period of two years, in order to bring the under-sized trees to such a height as not to require any further maintenance when taken over by the department.

Monghyr to Burheya ..	729
Sultangunge to Bolhar .	1,910
Ganges ghât to Rasidpore ...	7,468
	10,107

Trees maintained by departmental agency are as follows:—

Jamooe sub-division	4,681
Shekhpura	396
Sudder sub-division	4,214
Begooserai	300
	9,591

Nurseries are also maintained by the department for filling up the gaps in the lines of trees on the old roads. It appears that trees can be planted departmentally more advantageously than under the contract system, and accordingly the District Engineer has been requested to adopt the former course.

10. The accounts are monthly scrutinized and audited by a Standing Sub-Committee. The local auditor has also inspected and examined the accounts up to September 1886 in November last.

11. *General remarks*.—The state of communication is generally good. The roads were regularly maintained and kept in passable order. An unusual heavy flood visited the district last year, causing more or less injury to several district roads and bridges, especially in the north of the district. Supplementary estimates have been submitted by the District Engineer for repairing the flood damages, and these estimates have been sanctioned by the Committee. Liberal grants were made to the Branch Committees, and considerable improvement has been made in village communication. The following sums were allotted to the respective Branch Committees last year:—

	Rs.
Jamooe	5,095
Begooserai	6,000

Establishment.—The District Engineer and his subordinates have on the whole worked fairly well. Two of the exceptions have resigned.

The working of the Committee's establishment in other branches has also been mostly good.

Passed in a meeting of the Road Cess Committee held on the 17th January 1887.

HERBERT MOSLEY, *Chairman, District Road Committee.*

C. MURRAY, *Major-General, Vice-Chairman, District Road Committee.*

G. THOMAS, J. MISSER, } *Members of the Committee.*

No. 74, dated Bhagulpore, the 3rd January 1887.

From—A. C. WACE, Esq., Chairman of the District Road Committee, Bhagulpore,
To—The Commissioner, of the Bhaugalpore Division.

I HAVE the honour to submit the District Road Fund report for the cess year 1885-86.

2. *Original works.*—The allotment under this head could not be fully utilised (i) because of the utter failure of the contractors employed on the second section of Ghoga-Assi-Bowsi road, (ii) because the project for a feeder road from Abnar to Jhilki, *vid* Nowabukhur and Nirmali, the new station on the Tirhoot State Railway was sanctioned too late to be commenced in time for completion within the year. There was also some savings from other works.

3. *Demarcating road lands*—Preliminary demarcation and survey of roads Nos. 7, 8, 10, 19, 22, 23, 26, 27, and 28 were completed, and land plans for them have been prepared, except for roads Nos. 7, and 8, which will be finished soon.

4. *Arboriculture.*—This is the seventh year of operation under this head. Since the beginning of operations 9,355 trees have been planted out and maintained by the District Engineer, they are distributed over five roads, and are in better condition than, according

to my experience of other districts, is usual. The Branch Road Committees have maintained trees planted on sides of five roads in their care, and the trees generally are thriving well.

5. *Repairs.*—Repairs have been carried out very satisfactorily. The allotments under this head have been well worked up to. Only Rs. 6,600 out of Rs. 76,615 remains unspent at end of the year, chiefly owing to failure of contractors employed on roads Nos. 1, 2, 3, 5, and 13. Mr. W. St. Clair Grant also failed to complete the earthwork on roads No. 19, on account of heavy rains. It will be completed in 1886-87. The roads on the District Engineer's list have been properly maintained throughout the year and are in good condition. Most of the roads are now drivable throughout the year. The chief exception is that portion of the northern road between the Tiljooga and Kishengunge. During the year the Committee have finally decided to abandon all idea of embanking and bridging this section. The decision is in accord with the suggestions thrown out in Government letter No. 83T.C. of the 26th May 1885, and the reasons for it were fully stated in my No. 288, dated 30th April 1886. The list of roads has been under revision during the year, the classification having been found faulty in some cases, and the list unnecessarily combrous owing to sub-division of continuous lines of roads.

* * * * * * * *

8. *Road Cess Act.*—The Road Cess Act has worked satisfactorily on the whole. The estimated receipts of Provincial rates "Cess on lands," was Rs. 1,31,300, and the actual collections under that head for the year, including arrears is Rs. 1,31,835-15-1. The percentage of collection was 100·4, but the progress in collection of arrears was not good.

* * * * * * * *

9. The attendance of the Sudder Committee was not quite as good as in 1884-85 though the meetings were held more regularly; one day in the month having been now fixed. One member attended no meeting, and one only a single meeting; but, on the other hand only seven attended less than four meetings against eleven members in 1884-85.

10. A Sub-Committee of the District Road Committee is charged with preparing budget estimates, auditing accounts, accepting tenders for works, &c. It meets once every month, and the date for this is also now fixed.

11. *Village roads.*—The Branch Road Cess Committees have worked better than the returns of their attendance would indicate. It is satisfactory to note an improvement in attendance at Soopole and head-quarters. I am taking steps to revise the *personnel* of the Branch Committees, excluding those who never or rarely attend meetings, and have no reasons for the neglect. The Branch Committees were invited during the year to nominate representatives to attend the Sudder Committee meetings under section 161, and Banka and Soopole took advantage of the offer. Aggregate length of roads in their charge is 1,018 miles, most of them are 4th class or village roads. The Branch Road Committees seem to have made the most of the allotments made to them for the improvement of the village communications, as will appear from the figures below, viz:—

	Allotments.	Expenditure.
	Rs.	Rs.
Head-quarters	5,580	4,937
Banka	5,000	4,973
Soopole	4,695	4 664
Madehpura	4,750	4,750
Total ...	20,025	19,324

It is not satisfactory that the head-quarters sub-division should be most backward in this respect, and the excuse offered of heavy rains and high floods can hardly be accepted as satisfactory. Considering the floods of 1884-85, there can have been no difficulty in finding work which could easily have been done before last June.

12. *Aid from zemindars and private persons.*—Zemindars and private gentlemen have shown their liberality and public spirit everywhere in either giving land required for roads without charge or allowing occupation of it pending settlement of its value, and in the execution of repairs of roads within easy access. Mr. W. St. Clair Grant advanced a sum of Rs. 2,995-1 without interest for two years to enable us to raise No 19 above flood level.

13. *Establishment.*—There were no changes in the Engineering establishment during the year under report. The Committee have every reason to be satisfied with the way its officers have worked.

14. *Account.*—The amalgamation of the post of Accountant of the Committee office and of the District Engineer's continues to work well. The books and accounts have been kept in a satisfactory manner, and up to date. The offices were inspected by the local auditor only once during the year, viz., in November 1885, and considering that the Committee pays for an audit, it is not satisfactory that the Accountant-General's office should not have been able to do more.

15. The annual accounts for the year under report, are submitted.

SHIB CHUNDER BANERJEE,

Vice-Chairman.

No. 53, dated Purneah, the 16th December 1886.

From—H. G. COOKE, Esq., Chairman, District Road Cess Committee, Purneah,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honour to submit herewith a copy of the annual accounts of receipts and expenditure for the cess year 1885-86, ending on the 30th September last, together with the following report on the administration of the fund during the year.

2. The annual accounts were examined by the standing Sub-Committee of Audit, consisting of the Vice-Chairman and two members, and passed by the District Committee at their meeting held on the 23rd November 1886, in accordance with the provisions of section 179 of the Cess Act IX, (B.C.) of 1880.

* * * * * * * *

4. During the cess year under report there were 13 members, and one additional member was appointed in February 1886, making a total of 14 members on the Committee. These consist of four officials, five planters and five zemindars. Two of the planter-members, Messrs. Shillingford and Cave, and one zemindar-member, Baboo Mohesh Lall, died, and another, Mr. R. C. Walker, resigned : their places have been filled up by other members of the same class. The deceased members and one of their successors could attend only one meeting. Out of the two members that did not attend in any meeting, one was sick and went to England on leave, and the other was Executive Engineer, Bhagulpore Division.

5. There were seven meetings held during the year, and the average attendance of members was fair, being 6·14.

6. All the members took sufficient interest in discussing the questions that came before them, and displayed independence in doing so.

7. No meeting had to be postponed for want of a quorum, except at one in the Kissengunge sub-division, and one in the Arrareah sub-division. All the planters helped the Committee by looking after village roads, and taking charge of their repairs. The rest of the following members helped the Committee by auditing monthly accounts :—

Vice-Chairman, District Road Cess Committee.	E. G. W. Williams, Esq.
Dr. D. Picachy.	Baboo Gobind Chunder Banerjee.
	Baboo Bissen Chand.

8. *Working of the Act and the feelings of the people.*—The road cess being now a well-known and long-standing tax, questions are no longer raised as to its necessity, or the principles on which it is assessed. It is paid without murmur as an acknowledged and regular contribution to the public revenues.

The Road Cess Act has much improved communications, but owing to the limited income of the district much yet remains to be done. The Act has certainly worked very smoothly throughout the year.

9. *Working of the Committee.*—With regard to the Committee's operations in connection with the improvement and maintenance of the district roads, a copy of the District Engineer's statement of work done is herewith enclosed, and the details of expenditure are shown in the annual accounts, herewith appended.

Original Works.—Constructing 40-feet timber bridge on road No. 6, Raneegunge to Barsoe, and an embankment on the west of Kolassy on road No. 17, Korah to Katiyar.

An important work has been proposed to be done during next year, viz, to construct a bridge over the Karee Kosee, about two miles west of the Purneah station, for which Government have kindly granted, free of cost, old bridge materials (ironwork) that are lying on the Ganges and Darjeeling road. They are being collected, and the estimate for the work is under preparation. This communication will greatly facilitate the traffic of the western part of the district on its way along the railway feeder to the Purneah station.

10. *Maintenance and Repairs.*—The works undertaken during the year chiefly consisted of surface repairs, filling in gaps and depressions, and making diversions of roads. Out of 846 miles of road in the Committee's list, 762 miles were repaired under the direct supervision of the District Engineer, 54 bridges were repaired, 7 inspection bungalows were also maintained in fair repair, and 5 diversions of roads done.

The roads are far too numerous for the resources of the Committee. Very many remain unbridged, and several were breached in the course of the year. Complaints of the roads stopping the drainage and injuring crops and dwelling are too common. The Committee have fully recognized their responsibilities in this respect, and threats of civil proceedings by a planter have assisted them in doing so.

A good deal of smoothing of ruts has been done, and roads are fairly level and smooth, but the bridging of the roads has made every little progress.

11. The village roads in the sudder sub-division were mostly repaired by the planters, and some of them were done by the District Engineer. Rupees 5,000 were allotted in the budget for this work, but Rs. 256 more were spent. This excess has been adjusted by transfer from "*Chairman's* Reserve." With regard to the village roads in the Kissengunge sub-division, the Deputy Magistrate has much improved them by fixing drain pipes where required, and spent the whole of his allotment, viz., Rs. 4,000. A copy of his report is herewith enclosed.

The present Assistant Magistrate of Arrareah takes a proper interest in village roads. A copy of his report is also enclosed.

The total outlay on village roads amounted to Rs. 11,116, against Rs. 8,675 in previous year.

12. *Arboriculture.*—The operation was confined to the maintenance of the trees planted during the previous year, viz., 2,685 trees were maintained with their fences repaired, and replacing of those damaged by cattle and cartmen. No new trees were planted during the year.

In the sub-divisions of Kissengunge and Arrareah the trees on the sides of roads were also maintained with proper fences.

A gardener was kept throughout the year to see the nursery garden in the Purneah station.

13 *Inspection of district works by the Divisional Superintendent.*—The district works were inspected by Mr. J. E. Owen in June 1886. He also inspected the District Engineer's office.

14. *Inspection of accounts by the Examiner of Local Accounts, Bengal.*—The offices of the Chairman and the District Engineer were last inspected by the Auditor of Local Accounts, Bengal, in August 1885.

15. *How the different establishments worked during the year.*—The establishment attached to the Chairman's office consists of an accountant and a peon, and has given entire satisfaction. Mr. R. G. S. Roberts continues to be the District Engineer. He is an officer of much energy, and displays great interest and earnestness in his work.

1885-86.

R. G. S. ROBERTS,

District Engineer.

No 255, dated Kissengunge, the 18th October 1886.

From—BABOO GOSSAIN DASS DUTT, Chairman, Branch Road Cess Committee Kissengunge,

To—The Chairman, District Road Cess Committee, Purneah

I HAVE the honour to submit herewith the annual returns showing the work done by the Branch Committee at Kissengunge during the cess year 1885-86.

2. The funds placed at the disposal of the Committee was Rs. 4,006-12, out of which Rs. 929-13 was spent in original works, Rs. 370-10-3 spent in repairs of bridges, Rs. 2,333-5 was spent for repairs of the existing village roads, Rs 24 was spent for repairs of fences of trees, Rs. 342-3-9 was spent for keeping up the working establishment, and Rs. 6-12 was paid to Mr Mackenzie on account of his pension.

3. The Committee has made the best use of Rs. 4,006-12 placed at their disposal during the year under report in constructing several drain bridges, and repairs to several village roads, which consist of 234½ miles under their charge, and tried their best to satisfy the people of the whole of the sub division.

No. 133R, dated Arrareah, the 7th December 1886.

From—BABOO SURJYA KUMAR AGASTI, Chairman, Branch Road Cess Committee, Arrareah,

To—The Chairman of the District Road Cess Committee, Purneah.

I HAVE the honour to submit the following report on the working of the Arrareah Branch Road Cess Committee for the year ending 30th September 1886. Particulars regarding the constitution and meeting of the Committee have been shown in the annexed statements A* to C.*

During the year under report Rs. 2,000 were placed at the disposal of the Committee for repairs of the village roads, maintenance of office establishment, fencing of roadside trees, and contingencies. Of this Rs. 1,740-7-8 were actually spent for the above purposes, and Rs. 259-8-4, of which Rs. 225-8-1 represent the amount refunded by parties, remained unexpended at the close of the year. The annexed statement D† shows the allotment and expenditure on village roads, establishment, &c.

No new road was constructed during the year. Repairs were done to the existing roads, and in some cases extensions were made to them.

The soil of the sub-division is very sandy, and the roads are very easily cut up by traffic.

The loose sand on them is almost blown off by the strong westerly winds, and the gaps and pits remain in the same state as they were before repairs are done.

The repairs on the roads were done under the supervision of the members of the Committee and some respectable mooktears of this sub-division, and the work thus executed was measured by the road sirkar.

I personally inspected some of the repaired roads, and found the work was well executed on the whole

The Bussuntpore station roads were all of them repaired and extended under my direct supervision.

Explanatory Note to accompany the Annual Accounts for 1885-86.

ITEMS.	Amount as per budget estimate	Actual receipts or expenditure.	Increase.	Decrease.	Explanation.
Receipts.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Cess on lands	78,514	79,145 2 4	631 2 4	.....	The increase is on account of advance collections.
Ferry tolls	355	520 12 0	165 12 0	.....	The increase is on account of advance collections from ferry farmers.
Rents of serais and bungalows	.....	13 9 0	13 9 0	.....	This collection was not anticipated at the time of framing the budget.
Fees, fines and forfeitures ..	25	262 4 0	237 4 0	...	This increase is on account of last year's process fees, which had to be credited to this head by the old rule.
Interest	350	188 14 6	....	161 1 6	The collections are not so much as was anticipated, hence the decrease.
Miscellaneous	.....	422 6 0	422 6 0	.....	The increase is owing to sale proceeds of materials, receipt from the Chairman, Rhanjpore District Road Cess Committee, for repairs of portion of Road No. 10, which is not within this district, receipt from Collector for excess payment for stationery, from Chairman, Municipality, for rent of road cess building, and receipt from parties, two days' pay of Collection office Head Clerk, summoning him to depose in the Civil Court.
Advances to Road Cess Deputy Collector.	1,000	527 4 0	.....	472 12 0	The reduction on this head is on account of a considerable amount which had to be credited to head "Fees, fines, and forfeitures," according to old rules.
Expenditure.					
Refund of other receipts ...	.....	9 10 6	9 10 6	.....	This is on account of refund of copying fees for September 1885, and salary for one day of a clerk who was cited as a witness in the Civil Court. Adjustment by transfer of this amount from savings of "repairs" is sanctioned in Commissioner's No. 273P.W. of 13th November 1886.
Establishment and contingencies of collection office.	1,542	1,529 13 9	.....	12 2 3	The differences being very trifling, require no explanation.
Establishment and contingencies of Committee's office.	1,502	1,625 3 6	123 3 6	.....	Owing to Doorga Poojah holidays the Committee had to pay salary for September on the 30th of the same month by order of Government. The adjustment of this sum also is sanctioned by Commissioner in his No. 273P.W. of 30th November 1886, from savings of "repairs."
Percentage cost of establishment, &c.	1,236	1,232 0 9	.....	3 15 3	The difference is trifling and requires no explanation
Stationery and Printing	500	313 5 1	.....	186 10 11	So much stationery was not purchased as was anticipated, and some payments were made in October 1886.
Original works	7,798	2,538 13 9	.....	5,259 2 3	Saving in the "Chairman's Reserve," which was not spent.
Repairs	63,321	48,575 9 8	.. ...	14,745 6 4	Saving in the "Chairman's Reserve," and from many of the district roads, which the District Engineer could not spend.
Establishment on works ...	13,044	14,984 4 4	940 4 4	.. ..	The same remark, as against "establishment and contingencies of Committee's office," applies here also.
Tools and plant	300	270 11 6	.....	29 0 6	No kodalies purchased as was anticipated; hence the reduction.
Establishment of Divisional Superintendent of Works.	4,344	3,605 0 0	... ..	739 0 0	Owing to a large balance remaining in hand of last year, the full contribution was not required to be paid
Toll and ferry establishment and contingencies.	250	196 9 0	.....	53 7 0	The District Engineer refunded the amount advanced to him for purchasing a boat
Advances	1,200	693 0 0	.....	507 0 0	Not so many certificates required to be issued as was anticipated.

SHAMAKOOMUD MUKERJEE, *Vice-Chairman, District Road Cess Committee.*

H. G. COOKE, *Chairman, District Road Cess Committee.*

The 16th November 1886.

No. 49, dated Maldah, the 29th December 1886.

From—H. G. SHARP, ESQ., Chairman, District Road Committee, Maldah,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honour to submit the Annual Accounts and the Administration Report of the road cess operations in this district during the cess year 1885 86. The accounts were examined and certified by the Sub-Committee of Audit appointed under section 174, Act IX (B.C.) of 1880, and were afterwards passed at a special meeting of the Committee held on the 20th instant. A copy of resolution No. 2 passed at that meeting is annexed hereto.

2. *Committee's business.*—Eight meetings of the Committee were held during the year, of which five were presided over by the Chairman and three by the Deputy Magistrate in charge during the Chairman's absence on tour. The regular notice was given before every meeting, and no business was transacted in the absence of a quorum. The proceedings of the Committee were duly recorded in the minute-book, and the orders passed thereon have been carried out. * * * Mr. C. R. Marindin was Chairman from the 1st to the 25th October 1885; myself from the 26th October 1885 to the 23rd March 1886; Mr. C. J. S. Faulder from the 24th March to the 18th April; and Mr. L. Hare for the remainder of the year.

3. The monthly accounts of the road fund offices were duly examined and audited by a Standing Sub-Committee of Finance, consisting of four members, one of whom was the Vice-Chairman of the Committee.

4. Mr. George Hennessy and Mr. Fraser Forbes, Members of the Committee, have given much assistance in superintending the repairs of roads in their respective neighbourhoods.

5. *Demand, collection and balance.*—The arrears of road cess outstanding from the year 1884-85 were Rs. 5,378. The addition of Rs. 28,522, the demand for the year, made the gross demand for the year Rs. 33,900. Of this sum, Rs. 30,687 (exclusive of the amount collected in advance during previous years, but inclusive of the amount collected in advance during the year 1885-86), was collected within the year, and Rs. 155 was remitted, leaving an outstanding balance of Rs. 3,373, or 9·9 per cent on the gross demand of the year.

6. The statement below compares the results of the year with those of the two preceding years :—

	Demand.			Balance.			Deduct remission.	Net arrears.	Percentage on gross demand of net balance.
	Current.	Arrears.	Total.	Current.	Arrears.	Total.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1883-84	28,181	2,352	30,533	3,205	3	3,208	7	3,201	10·4
1884-85	24,804	4,243	32,747	4,706	629	5,335	...	5,335	16·2
1885-86	28,522	5,378	33,900	3,519	9	3,528	155	3,373	9·9

7. The percentage of total collection on current demand during the year was 107·5, as shown below :—

District.	Balance outstanding at the close of the cess year 1884-85.	Balance outstanding at the close of the cess year 1885-86.	Decrease.	Percentage of total collections on the current demand of the year 1885-86.
	Rs.	Rs.	Rs.	Rs.
Maldah	5,335	3,373	1,962	107 5

8. *Establishments.*—The working establishment consisted of—

1 District Engineer,
3 Sub-Overseers,
1 Clerk,
1 Store-keeper.

An additional Sub-Overseer is needed, as mentioned in the previous report, but could not be employed for want of funds.

9 The progress of the district works appears to have been considered by the Divisional Superintendent as generally satisfactory; but the District Engineer's own work in despatch and supervision was held in several matters by Mr. Hare, and in some by myself, to have fallen very short of the proper standard. Special reports have been made on this subject.

[The following paragraphs are taken from the District Engineer's report, with which the Committee have recorded their concurrence.]

10. The more important works—the relief works and the restoration of flood damages—were completed, in connection with which much help was received from the Sub-Overseers Baboos Nilmony Kuar and Kunja Behary Kar. The work was done by the regular establishment in addition to its ordinary duties, and the repairs to some fair-weather roads, especially those near Chanchal, was consequently delayed for some time.

11. *Relief Works.*—The relief works in the dearahs, taken up in 1884-85, continued during the year under review till the beginning of December 1885. The number of the units relieved was 25,725 in number, at a total cost of Rs. 4,007. The grant-in-aid of Rs. 15,000, solicited from the Government in consideration of relief expenditure, aggregating Rs. 6,751, and towards the restoration of these flood damages, and recommended in your letter No. 112P.W.—T., dated the, was refused by the Government in their No. 103T.L.

—F., dated 1st July 1886, and consequently some works of great importance, such as the thorough renewal of metal on the Nowabgunge road, &c., dependent upon that grant, could not be taken up and are indefinitely postponed.

12. *Flood.*—During the latter part of the year the Gangetic flood rose abnormally high—higher, indeed, than it had risen in the preceding year of disaster; and it breached and otherwise seriously injured almost all the embanked roads. The bridges, mostly of tâl wood, however, stood well, with the help of the precautionary measures taken by the Executive officers; and except a small one on the Shahapur and old Maldah road, none were washed away or so seriously injured as were some in the previous year.

13. *Working Sub-divisions.*—The working sub-divisions, as in former years, were four, viz.—

1. North Maldah.
2. South Maldah.
3. Pakuahat.
4. Chanchal.

As the number of Sub-Overseers, as stated in paragraph 8, was only three, the subordinate in charge of the south Maldah sub-division held charge of the Pakuahat sub-division also.

14. *Length of Communications.*—There are 92 land and 13 river communications, aggregating 951 miles in length, all of which, except 28 miles under Mr. Forbes and Mr. Hennessy, were under the District Engineer. The length of the mileage is, as observed in my last report, preposterous in relation to the income.

15. *System of working.*—The difficulty in getting enough labourers and piece-workers is still felt. The local labourers, being mostly of the agricultural class, will seldom go to road work during the sowing and reaping seasons, and the few labourers who come from Behar and other districts are the only men to be had for such work at all seasons. In the Chanchal sub-division the works were formerly always done on the advance system; but as the men could not give security for properly working out the amount advanced, the piece-work system is being gradually introduced by sending workmen and piece-workers from the Sudder station, and by mixing them with the local labourers. It will, however, take time to establish this system in that locality.

16. ORIGINAL WORKS—*Inspection Bungalow at Nowabgunge*—This work, sanctioned by the Government in their No. 433T.—C., dated 21st September 1885, was completed during the year under report.

17. *Gomastapore and Nachol road.*—The earthwork has been nearly completed. The exceptions are some small portions on the 2nd and 3rd miles, where its progress was stopped by the rise of the last flood.

18. *English Bazar and Rajmehal road.*—The construction of this road was sanctioned by Government at an estimated cost of Rs. 86,384, but could not be taken up during the year owing to the refusal of the grant-in-aid, without which the work can hardly ever be done.

19. *Aboriculture.*—About 600 mango plants were maintained on the English Bazar and Nawabgunge road, and 40 were planted on the road between Makrampur Ghât and Parbuttipur. Besides these, more than 2,000 young trees were planted and nursed in the four bungalow compounds at Amerti, Gajol, Rohonpur, and Parbuttipur.

20. REPAIR WORKS—*First class roads.*—There was only one first class road on the list, and it is about a mile and a half in length. Besides general repairs and the restoration of the flood damages, it received a new coat of metal for about 10 chains on its injured portions.

21. *Second class roads.*—About 166 miles in length received general repairs; and the damages caused by the flood to the bridges and the earthwork were restored. The temporary tâl bridges which had to be built after the flood, and also for the general improvement of these roads, aggregated 330 running feet* in length, as detailed in the margin. Some of the roads remained driveable during a considerable part of the year, till the rains and the floods breached and injured them in many places.

22. *Third class roads.*—Nine and a half miles in length, were mostly (6½ miles) under Mr. G. Hennessy of Mathurapur, and these, as well as the portion under the District Engineer, were kept generally in good order.

23. *Fourth class roads*—Three hundred and ninety-six miles in length, were kept up in various ways, indifferent or bad, during about half the year. These roads being of the fair weather class, are mostly under water during the whole rainy season. To repair them simultaneously is difficult, and in some cases impossible, for the reasons stated in paragraph 14.

24. *River communications.*—These, aggregating 378 miles in length, were relieved of eight wrecks of boats large or small, several trees and two sâl lags, which had been under water in places through which boats constantly pass, and had much endangered the navigation.

Copy of Resolution No. 2 passed by the District Road Committee of Maldah at a special meeting held on the 20th December 1886.

2. *Read* the proceedings of the Sub-Committee of Audit, appointed under section 174, Act IX (BC.) of 1880, at their meeting held on the 17th instant, and the annual accounts for the cess year 1885-86, examined and certified by them under section 179.

Resolved unanimously—That the accounts be passed.

K. D. CHATTERJEE,

Vice-Chairman.

MALDAH DISTRICT CESS OFFICE,

The 17th December 1886.

No. 34P.W., dated Dumka, the 31st December 1886.

From—R. CARSTAIRS, ESQ., Offg. Deputy Commissioner, Sonthal Pergunnahs,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honour to submit my annual report and accounts on the working of the road works in the Sonthal Pergunnahs district for the year which ended on the 30th September last.

2. Sonthalia, like Singbhoom and Chittagong Hill Tracts, is a non-cess district. We have hence no Road Cess Committee, as elsewhere. The Deputy Commissioner exercises all powers vested in a Cess Committee, as far as they relate to administration of district works.

3. Original works done in the district in the year under review are as follow:—

(1)—A high spacious bund thrown across the Nunhochee stream, 19th mile, road No. 2 (Dumka and Rampore Hât), with masonry escape bridges (one of 3 spans of 6 feet, and the other 2 spans of 6 feet) at both ends, measuring in length about 400 yards.

(2)—A stone causeway across the Jeebunpore Nala, one of the most turbulent streams in the district, on the 80th mile, road No. 1 (Bhagulpore and Suri), having a length of about 175 feet.

(3)—A bund about 500 feet long across the Murjore channel, 87th mile, Bhagulpore and Suri road, with escape culverts at both ends.

(4)—A masonry bridge of 4 spans of 18 feet 4½ inches each over the Sajnia Nala, 56th mile, road No. 1; the arches, piers, and counterforts of this bridge being built of rubble masonry. Great difficulty was experienced in the bridge foundations, as they had to be carried to a depth of about 15 feet through sand and water. The two bunds referred to have immensely benefited the neighbouring people, both in drinking and irrigation purposes; and by raising them to great heights we have been able to do away with the dangerous steep gradients in the roads, so long complained of.

4. *Repair works.*—All the roads borne in the district statement have been properly maintained and repaired during the year. The three village roads in the district, called Deoghur village roads, Benagoria village roads, and village chord Rampore Hât road, received as usual adequate attention in regard to their annual maintenance. Kamirabad road (No. 19) has been, as before, repaired during the year by the Belpatta zemindar.

5. Staging and inspection bungalows have been repaired and improved during the year. The bungalow at Sikeripara, on the 17th mile, road No. 2 (Dumka and Rampore Hât) underwent thorough repairs and greatly improved.

6. Arboriculture has been carefully attended to during the year. We have now on our roadsides about 24,000 young and well-thriving plants, mostly mangoes, about 5,000 of them having been planted during the year on the sides of the road leading from Dumka to Godda. A great many mango plants, four to five years old, flowered during the year under report, and some of them brought forth fair-sized good fruits. Our nurseries have been carefully looked after, and steps are being taken to establish a few more nurseries during the current year.

7. The work establishment consisted of a District Engineer, one Overseer, and one Sub-Overseer, and the office staff of one Accountant and one Clerk. The District Engineer has continued to give complete satisfaction, and the establishment has done efficient work.

R. CARSTAIRS,

Offg. Depy. Commr., Santhal Pergunnahs.

No. 347P.W., dated Bhagulpore, the 14th February 1887.

From—G. N. BARLOW, ESQ., Commissioner of the Bhagulpore Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the annual accounts and reports of road cess operations of the several districts in this division for the cess year 1885-86.

2. *Road Cess Collections.*—The collections were satisfactory in all the districts in this division. The percentage of collections is given below :—

Monghyr	... 98·9	
Bhagulpore	... 100·4	Excess over 100 per cent. is due to arrear collection.
Purneah	... 100·8	
Maldah	... 107·5	

3. *Working of the Act.*—The Act has continued to work satisfactorily. The people in general appreciate the roads, especially village ones, constructed under the provisions of the Act.

4. *Attendance at meetings of District Road Committees.*—The number of meetings held by each District Road Committee is given below, together with the average attendance :—

NAMES OF DISTRICTS.	Number of meetings.	Number of members.	Average number attending each meeting.	Number who did not attend any meeting.
Monghyr	7	17	6	4
Bhagulpore	9	17	7	2
Purneah	7	14	6·14	2
Maldah	8	15	6·10	5

Branch Committees, Monghyr District.—The attendance of the members of the Branch Committees have not been favourably reported on by the Chairman. None of the European members, except one, attended the meetings during the year under review, and that on one occasion only, but they render assistance in undertaking the maintenance of village roads in the neighbourhood of their residences in the interior of the district

Branch Committees, Bhagulpore District—The Branch Committees have worked better than in former years : 1,018 miles of village roads were maintained by them. The attendance of the members at Supul and head-quarters was satisfactory.

Branch Committees, Purneah District.—The average attendance of the members of the Branch Committees is said to have been fair.

6. *Original works and repairs, Monghyr District.*—The chief works in this district completed during the year were :—

The construction of the Munshi-Bukhtearpore road (generally called the Napaul road) and the reconstruction of the Ganges Ghât to Rasidpore road (commonly called the Tirhoot road) to keep off the spill of the Ganges. The former is the heaviest and most expensive work ever undertaken by the Monghyr District Committee. Besides these, several other useful original works were undertaken and completed during the year.

Repairs.—The necessary repairs were carried out to all the existing roads and bridges. They were, generally speaking, kept in fair order.

7. *Original works and repairs, Bhagulpore District.*—The principal original work undertaken during the year was the construction of the second section of the Assi-Bowsee road. This work was not completed owing to failure of contractors.

Repairs.—Most of the roads in this district have been maintained throughout the year, and they are in fairly good condition.

8. *Original works and repairs, Purneah District.*—The principal works in this district undertaken during the year under report were the construction of a 40-feet timber bridge on Raneegunge to Barsoe road, No. 6, and an embankment on the west of Kolassy on Korah to Kateyar road, No. 7.

Repairs.—Surface repairs, filling in gaps and depressions, and making diversions of roads were undertaken on almost all the roads ; besides 54 bridges repaired, and seven inspection bungalows were maintained in fair order.

9. *Original works and repairs, Maldah District.*—The principal original works completed during the year were the construction of an inspection bungalow at Nawabgunge on the Nawabgunge-Rajshahye road and of the Gomastapur to Nachole road. The most important work sanctioned by Government is the construction of the English Bazar-Rajmahal road, which could not be taken in hand owing to want of funds, the Government having declined the grant-in-aid, without which it cannot be done. Besides the above, relief works in the dearahs undertaken in 1884-85 were completed, and the damage caused by floods repaired during the year

Repairs.—The roads in this district received attention. They were most of them repaired and maintained throughout the year, but several breaches were caused by floods.

10. *Original works and repairs, Sonthal Pergunnahs District.*—The original works executed in this district during the year were :—

(*a*) Constructing a bund across the Nunchochee stream in the 19th mile of Dumka-Rampur Hat Road, No. 2.

(*b*) Constructing a stone causeway across the Jabanpore Nullah on the 80th mile of Bhagulpore-Suri road.

(*c*) Constructing a bund across the Meryora channel on the Bhagulpore-Suri road.

(*d*) And a masonry bridge over the Sajniah Nallah.

Repairs.—All the roads in the district list were properly repaired and maintained throughout the year, and they are in very good order. The inspection bungalows were also kept in good repair.

11. *Village Roads, Monghyr.*—Considerable improvements were made to the village roads by the Branch Road Committees. Rupees 11,095 were allotted for the purpose.

Bhagulpore.—The Branch Committees effected improvements to the village roads under their charge. Rupees 20,025 were allotted for the purpose, out of which Rs. 19,324 were spent by them.

Purneah.—In this district the village roads were repaired, as in former years, by the planters, zemindars, and District Engineer, and much improvement has been made in them.

Maldah and Sonthal Pergunnahs.—There are very few village roads in these districts. Those in existence were repaired and maintained during the year.

12. *Tree-planting, Monghyr.*—Tree-planting was carried out on certain roads under the five years' contract system, the above system having not been found to pay. The District Engineer has been directed to plant out trees. There were 9,591 trees maintained departmentally in the year under report.

Bhagulpore.—The District Engineer planted out and maintained 9,335 trees during the year. The Branch Road Committees have also maintained trees planted out in five other roads under their charge.

Purneah.—No new trees were planted out during the year, except to replace those damaged by cattle &c. : 2,685 trees planted out in previous years were maintained. A nursery garden is kept up.

Maldah.—Only 40 trees were planted and 600 maintained during the year. Nurseries have been kept up at the four inspection bungalows.

Sonthal Pergunnahs.—Tree-planting was carefully attended to in this district. They are now thriving well. About 5,000 trees were planted out during the year.

13. I append abstracts showing the receipts and expenditure under the different heads.

14. *Establishment.*—There were no changes in the engineering establishment under the District Road Committees. Mr. T. E. Owen held charge of the office of Divisional Superintendent of Works of this division up to the 15th of June 1886, when he was succeeded by Mr. E. LeLievre, who remained in charge up to the 26th September 1886, the day of his death, which occurred very suddenly.

NOTICE UNDER RULE 17, SECTION II, PART I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of Sundarbans, has been applied for by Prosunno Coomar Sircar, and will be sold at 12 o'clock noon on the 1st August 1887, Monday (17th Srabun 1294 B.S.), at the Sundarban Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands, dated 12th November 1879.

Conditions.

That the lands shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals in the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans has been applied for by Akbur Shaik, and will be sold at 12 o'clock noon on the 1st August 1887, Monday (17th Srabun 1294 B. S.), at the Sundarban Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the sale of leases of waste lands, dated 12th November 1879.

Conditions.

That the lands shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearance, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government

That the Government reserves to itself the right to all minerals in the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act, passed by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, received the assent of His Honour the Lieutenant-Governor on the 2nd April, 1887, and having received the assent of His Excellency the Governor-General on the 15th idem, is hereby published for general information:—

ACT No. III OF 1887.

An Act to amend the Calcutta Port Improvement Act, 1870.

Preamble. WHEREAS it is expedient to further amend the Calcutta Port Improvement Act, 1870: It is enacted as follows:—

Short title. I. This Act may be called "The Calcutta Port Improvement Act Amendment Act, 1887."

Commencement. II. It shall be read with, and taken as part of, Bengal Act V of 1870 as amended by Bengal Acts VII of 1871, III of 1872, IV of 1880, I of 1881, and II of 1883, and it shall come into force on such date as may be fixed by the Lieutenant-Governor, not being more than three months after the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of sections 2, 4 and 14 of Act V (B.C.) of 1870. III. Sections 2, 4 and 14 of Bengal Act V of 1870 are hereby repealed. This repeal shall not affect the validity of anything done or suffered, or any right, title, obligation or liability accrued before the commencement of this Act.

Constitution of Commissioners. IV. There shall be thirteen Commissioners, that is to say—

six elected Commissioners,

six nominated Commissioners, and

a Chairman:

Provided that, when all the vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 have been filled under the first four clauses of section 10, not less than two of the Commissioners shall be natives of India residing in Calcutta or Howrah.

Election and appointment of Commissioners. V. Of the elected Commissioners—

four shall be elected by the members for the time being of the Bengal Chamber of Commerce,

one shall be elected by the members for the time being of the Calcutta Trades' Association, and

one shall be elected by the Commissioners of the Town of Calcutta,

in such manner as shall, from time to time, be determined, at a meeting of the members of the said Chamber, at a meeting of the members of the said Association, and at a meeting of the said Commissioners of the Town of Calcutta, convened in accordance with the rules at the time in force in this behalf.

The President of the said Chamber, the Master of the said Association, and the Chairman of the said Commissioners of the Town of Calcutta shall each make a return to the Lieutenant-Governor of the name of every person so elected by the said Chamber, the said Association, and the said Commissioners of the Town of Calcutta, and such return shall be published in the *Calcutta Gazette*.

In default of election, Lieutenant-Governor to appoint

VI. In the event of default being made by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta in electing any Commissioner under the last preceding section within the period hereinafter prescribed in this behalf, it shall be lawful for the Lieutenant-Governor to appoint a person, and the person so appointed shall be deemed to be a Commissioner as if he had been elected by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta, as the case may be.

Appointment of nominated Commissioners and Chairman.

VII. The nominated Commissioners and the Chairman shall be appointed by the Lieutenant-Governor by notification in the *Calcutta Gazette*.

Appointment of Vice-Chairman

VIII. The Lieutenant-Governor may, from time to time, appoint one of the Commissioners to be Vice-Chairman, and may cancel such appointment.

Commissioners under Bengal Act V of 1870 continued.

IX. Notwithstanding anything in this Act contained, the Commissioners appointed under section 2 of Bengal Act V of 1870 shall continue to hold office until the expiry of the term prescribed in section 3 of the said Act.

First elections and appointments under this Act

X. Each of the first four vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 caused by Commissioners, who at the time of their appointment were members of the Bengal Chamber of Commerce, ceasing to act, shall be filled by election by the members for the time being of the Bengal Chamber of Commerce in the manner provided in section 5.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of 1870 is caused by a Commissioner, who at the time of his appointment was a member of the Calcutta Trades' Association, ceasing to act, such vacancy shall be filled by election by the members for the time being of the Calcutta Trades' Association in the manner provided in section 5.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of 1870 is caused by the Chairman of the Commissioners of the Town of Calcutta ceasing to act, such vacancy shall be filled by election by the Commissioners of the Town of Calcutta in the manner provided in section 5.

All other vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 shall be filled by appointment by the Lieutenant-Governor in the manner provided in section 7.

And thereafter all vacancies caused by elected Commissioners ceasing to act shall be filled by election under section 5, and all vacancies caused by nominated Commissioners ceasing to act shall be filled by appointment under section 7.

Time within which elections and appointments are to take place.

XI. All vacancies in the number of the Commissioners, whether appointed under Bengal Act V of 1870, or elected or appointed under this Act, shall be filled by election or appointment, as the case may be, within one month.

Casual vacancies.

XII. Any casual vacancy in the number of the Commissioners occasioned by death, resignation or disqualification shall be filled up in the same manner, and subject as far as may be to the same provisions, as are applicable in the case of original elections and appointments of Commissioners.

Amendment of sections 3, 5, 12 and 13 of Act V (B.C.) of 1870.

XIII. In section 3 of Bengal Act V of 1870, before the word "re-appointed" shall be inserted the words "re-elected or;" in section 5 the words "as hereinbefore provided" shall be omitted, and before the word "appointed" shall be inserted the words "elected and;" in section 8 and section 12, before the word "appointed" shall be inserted the words "elected or," wherever the same occurs; and in section 12 and section 13, before the word "appointment" shall be inserted the words "election or," wherever the same occurs.

GORDON LEITH,

Offg Asst. Secy. to the Govt. of Bengal,
Legislative Department.

REPORT OF THE CALCUTTA COURT OF SMALL CAUSES FOR THE YEAR 1886.

RESOLUTION.

JUDICIAL.

Dated Calcutta, the 25th April 1887.

READ—

The Report from the Judges of the Court of Small Causes, Calcutta, for the year 1886.

Read also—

The Report for the year 1885, and the orders of Government thereon.

The Report is accompanied, as usual, by a copy of the Judges' report to the High Court, and by the two sets of tabular statements—one for the information of the Local Government, the other for the High Court. The Judges complain of the imposition on them of this double burden, urging that only one set of returns is required from the Bombay Small Cause Court, and from every other Court in Bengal but their own. The forms of the returns submitted to the Local Government were prescribed by the Government of India, and cannot be altered for Bengal alone without sacrifice of uniformity in the reports from all three Presidencies. The question whether one set of returns will not suffice for both purposes rests with the Supreme Government and the High Court, and is not within the Lieutenant-Governor's competence to decide.

2. The number of cases for disposal, the number disposed of, and the manner in which they were dealt with, are shown in the following

statement, the figures of 1886 being compared with those for the two previous years :—

	1886.	1885.	1884.
Pending from the previous year ...	3 291	2,664	1,801
Instituted during the year (including revivals)	29,513	31,002	31,074
	32,804	33,666	32,875
Decreed in favour of plaintiff after contest	4,418	4,003	4,076
Decreed in favour of plaintiff without contest	9,820	10,273	9,450
Dismissed after trial	1 352	1,202	1,312
Non-suited or withdrawn ...	702	743	816
Compromised	10,014	10,796	11,492
Dismissed for default or want of prosecution	3,598	3,283	2,995
Dismissed uncontested	50	73	70
Pending at the close of the year ...	2,850	3,291	2,664
	32,804	33,664	32,875

As compared with the preceding year, "Miscellaneous cases," as shown in one of the statements appended to the Report to the High Court, fell off by 29. There was a decrease of 1,428 in the institution of regular suits, exclusive of revivals, and the figure for 1886 is less than that for 1881 (34,108), the last year before the introduction of the present Act, by 4,892. The falling off in the past year was chiefly in suits below Rs. 50 in value, though there was also a slight diminution in the number of suits up to the value of Rs. 100 and of Rs. 100 to Rs. 500, and again in those of above Rs. 1,000 in value, of which the latter take up most time and give the most trouble. The work, however increased in other directions. There were 11,403 "Other applications" against 8,633 in 1885—a rise of 2,770; the number of applications for execution of decrees increased by 871, from 17,636 to 18,507; and applications for leave to sue under section 18 by 141—1,684 against 1,543.

3. The appointment of a Fifth Judge from the 1st November enabled the Court to dispose of a slightly increased number of contested cases, and to reduce the very heavy pending file from 3,291 to 2,850. There were at the close of the year 946 cases that had been pending more than three months, against 1,076 in the previous year.

4. The total value of suits decreased from Rs. 21,41,108 to Rs. 20,68,380. The falling off in the number and value of suits did not, however, affect the operations of the Execution Department; the amount realised with issue of process increased from Rs. 2,42,265 to Rs. 2,48,179, and Rs. 2,21,082 were realised without process against Rs. 2,16,323 in the preceding year. The number of debtors imprisoned, too, rose from 453 to 481, and of debtors arrested, but released without imprisonment, from 449 to 506. The net receipts of the Court were Rs. 95,192 against Rs. 99,429 in 1885.

5. The Judges, as requested by the Lieutenant-Governor, refer in their report to the recent complaints, preferred by the Bengal Chamber of Commerce, of the inconvenience felt by the public owing to the want of sufficient accommodation, of the working of the Distraint Department, of the want of a store and sale shed, and of the delays entailed by the new procedure introduced by Act XV of 1882. A store and sale shed has since been provided; but on the other points the Judges are unable to make any definite practical suggestions. They say generally that the Court premises are already overcrowded, and that if extra accommodation is required, either in the way of additional waiting-rooms for suitors or benches, it cannot be given without building. It is not, however, distinctly stated whether, in the opinion of the Judges, the complaints of the Chamber of Commerce are well-founded or not; and in fact, both as regards the questions of want of accommodation and of the working of the Distraint Department, they are unable to understand to what these complaints, which were stated very briefly and generally, precisely refer. The Lieutenant-Governor would be glad to receive a further report on the question of the additions to the present building, both for the accommodation of the Courts and of suitors, if the Judges really consider such additions absolutely necessary.

6. As regards the working of Act XV of 1882, the Judges merely say that the matter has been dealt with in every annual report since the Act was passed; but in their report to the High Court they attribute the decrease in suits of smaller values "to the more cumbrous procedure which has been adopted since 1882, and to the fact that the smaller suits are necessarily shouldered out of the way in consequence of the greater time which is taken up in contesting suits of higher value and importance." They add, however, that the appointment of a Fifth Judge will probably secure the more prompt disposal of suits. The Lieutenant-Governor hopes that the returns for 1887 will verify this prediction. Those for 1886 show that the average duration of suits has increased to such an extent as to seriously affect the usefulness of the Small Cause Court as a Court for the speedy collection of small debts; and it is not surprising to find that the number of suits of the smallest values show a marked decrease, while of suits actually instituted, an ever-increasing number is referred to arbitration. In 1881 contested suits lasted on the average for 31·3 days; and although there are no statistics of this kind for previous years, it appears from a remark in the Government Resolution on the report for 1881—"cases now take a much longer time to try"—that in earlier years the average duration was still shorter. In 1882 the figure rose to 54·8, and in 1883 to 71·5. Since then the increase has been very rapid—114·4 in 1884, 127·1 in 1885, and 149·2 in 1886. No doubt a very considerable proportion of this increase is accounted for by the longer time taken over cases of higher values tried under the ordinary Civil Court Procedure; and, as it appears that these cases are, almost without exception, taken by the Chief Judge, it is not clear why suits for smaller values, tried by the other Judges, should last much longer than they did before. But, as the Judges admit, smaller suits are "shouldered out of the way," and frequent postponements add enormously to the time occupied in disposing of them. It would be useful if the Judges could, in future reports, in addition to stating the average duration of contested suits, show separately the average duration of suits tried by the ordinary and summary procedures respectively. It would then be possible to estimate how far Act XV of 1882 is responsible for the delays now complained of, and how far they are due to other causes. In so far as they are accounted for by the mere overclogging of files, the recent appointment of a Fifth Judge will doubtless do much to relieve the other Judges, and expedite the decision of small cases; but it appears to the Lieutenant-Governor that something more is required than an addition to the number of Judges. During the past year two Judges of the High Court, after an inspection of the Small Cause Court, observed that each Judge was occupied for two hours daily, and often still longer, with the revision of his day's list; and they recommended the adoption of a different distribution of work, by which the daily revision should be left to one Judge, the time of every other Judge being left free for the trial of contested cases. This procedure was tentatively adopted, but abandoned after a trial of three weeks, with the consent of the Chief Justice, and of one of the inspecting Judges, Mr. Justice Wilson. The Court has since reverted to the old procedure: but the Lieutenant-Governor trusts that it may be found practicable, since the Court has been strengthened by the addition of one Judge, to get through the revision of the day's list in a shorter time, and he hopes that this cause of delay will now be greatly lessened. What more is required to enable the Small Cause Court to fulfil the object with which it was created, the Lieutenant-Governor must trust to the Court itself, with the advice and assistance of the High Court, to indicate. Although constantly referring to the delay involved in the procedure imposed by the Act of 1882, the Small Cause Court Judges have never made any definite suggestions for remedying the defect. In their Report for 1882 they wrote: "We are not prepared to advocate a return to the old practice"; and they have never since recommended any amendment of the present law. It is for them to indicate the remedy for any defects which experience may since have disclosed either in the law or in the practice of the Court.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Chief Secretary to the Govt. of Bengal.

PROCEEDINGS OF THE MEETINGS OF THE MUHAMMADAN EDUCATIONAL ENDOWMENTS COMMITTEE.

The following proceedings of meetings of the Muhammadan Educational Endowments Committee are published at the request of the Committee for general information.

P. NOLAN,
Secretary to the Government of Bengal.

Proceedings of a meeting of the Muhammadan Educational Endowments Committee, held on the 9th March 1887.

Present:

HON'BLE G. C PAUL, C.I.E., *Advocate-General, President.*
HON'BLE ABDUL JUBBAR.
NAWAB BAHADOOR ABDOOL LATEEF, C.I.E.
P. NOLAN, ESQ.

THE minutes of the meeting of the 7th February 1887 were read and confirmed.

The following statement by the Secretary was read—

"There are now three schemes before the Muhammadan Educational Endowments Committee, and it is desirable to decide at an early date whether any of them will be adopted and worked out in detail.

The first was embodied in our preliminary report to Government, dated the 30th July 1886, and was subsequently approved at two meetings, Nawab Abdul Latif and the Hon'ble Abdul Jubbar dissenting. It provides for the appointment of a Central Committee, under the presidency of the Director of Public Instruction, with powers to administer the income of the Mohsin endowment available for education (Rs. 56,565 a year), to control the expenditure of other educational endowments, to call for annual accounts, and compel the production of deeds and evidence as to mixed endowments.

The second scheme is that of the Central National Muhammadan Association, and I understand it is now supported by three members of the Committee. It contemplates the appointment of a Central Committee under the presidency of the Advocate-General, with power to direct the expenditure of all educational funds of Muhammadan endowments, to supervise religious endowments, and to require from them annual accounts. It includes, moreover, the simplification of the procedure in endowment suits, the conferring on Civil Courts of new powers in such cases, the appointment of an officer in each district to look after suits of this character, and of a Committee, with the Collector as President, to advise mutwalis and exercise a general control, which is not to be inquisitorial.

The third proposal, which is connected with the names of Nawab Abdool Lateef and the Hon'ble Abdul Jubbar, is that Regulation XIX of 1810 should be revised, with a view to imposing on Government the duty of supervising through the Board of Revenue and District Officers, with the advice of local Muhammadans, the administration of all endowments according to the wishes of the pious founders. This is opposed by the Central National Muhammadan Association

The two first schemes resemble each other in including the supervision of secular endowments by a Central Committee presided over by a Government official; the two latter in recommending the control of religious endowments"

A letter was received from Mr. Ameer Ali, applying that further proceedings might be adjourned, pending the receipt of a promised communication from the Muhammadan Literary Society in reply to the proposals of the Central National Muhammadan Association.

The President observed that, while it was desirable to grant the adjournment, the preparation of the reply might be expedited. He would be glad if the Muhammadan members would come to an understanding among themselves, as otherwise Government would hardly be expected to take any decided action. Perhaps Nawab Abdool Lateef might be able to accept the proposal to supervise endowments by a Committee or Committees. If he adhered to his preference for official control, that might be vested in a special officer, more or less independent of Government. The policy of direct Government supervision had been definitely abandoned, and it was useless to advocate a return to it.

Nawab Bahadur Abdool Lateef replied that in these days it was difficult to secure an adequate supply of men duly educated in Arabic and the ceremonial

law to meet the requirements of Muhammadans. To some extent this need was met by the endowments If their administration were confided to Committees, the more advanced Muhammadans who had received an English education would acquire a control, which they would probably use to divert the funds to supporting purely secular education. As to a special official, there would be a difficulty as to his pay, and after all he would merely represent Government as much as the authorities named in Regulation XIX of 1810. It seemed safer to trust Government than to confide in new institutions. He would not object to the appointment of educational officers as Local Agents under the Regulation.

After some further discussion the meeting adjourned.

P. NOLAN,

Secretary, Muhammadan Educational Endowments Committee.

HON'BLE ABDUL JUBBAR.

MR. PHILIP NOLAN.

A LETTER from the Muhammadan Literary Society of Calcutta, dated the 14th March 1887* was read.

Nawab Meer Mohamed Ali represented that this communication had been in his hands only six days, and moved that its consideration be deferred to give the Central National Muhammadan Association time to reply ; also that the reply, when received, be published with the proceedings.

The motion was agreed to.

The Hon'ble Abdul Jubbar submitted the following *futwah* for the consideration of the meeting.

Question.—What is the verdict of the learned men of the Holy Muhammadan law on the following question:—Where a Moslem makes a *waqf* of certain lands for the *talibuhlin* [*i.e.*, students or seekers after learning], is the income thereof to be devoted exclusively to students of religious knowledge, or generally to students of any knowledge, *i.e.*, whether the same may also be given to students of the English language? Please answer this according to the principles of the Holy Muhammadan law. May God Almighty give you good recompense for it! He is the Helper!

Answer.—The income thereof shall be given exclusively to students of religious learning, as would appear from what is mentioned in the *Fatawa Alumgiree*:—"And if one were to make a *wasseyut* [testamentary disposition] in favour of the learned people of such and such town, it would include persons learning *Fiqah* [Muhammadan Law] and *Hadis* [traditions of the prophet], and it would not include those who discuss (religious matters) philosophically." *Finis* And God is all-knowing!

This *futwah*, he stated, explained the position he and his friends adopted towards proposals for providing English education from the funds of ancient endowments He had no objection to English education, on the contrary, he maintained some twelve students of English in his house He wished to see new scholarships founded to promote secular education. But the old endowments, in so far as they contained any clauses in favour of education, were designed only for religious education. There were several obligations imposed on Muhammadans as prayer, fasting, pilgrimage; and religious education was one of them. To assist in giving such education was distinctly a religious act for the good of the soul. These foundations discharged an useful function, inasmuch as in every country it was advisable to maintain men of religious learning. These funds should not be perverted to an alien use. In this he expressed not only his own sentiments, but those of the Muhammadans interested in such subjects as a body, as might be ascertained by enquiry at any Mosque.

Nawab Mir Mahomed Ali said that *futwas* could be produced on both sides of this question, and who was to decide as to their weight? Perhaps the President would be good enough to do so As to popular opinion, those who gained by the embezzlement of endowments were opposed to supervision, and they alarmed others by false statements as to the nature of the action proposed. The real defect was not the application of secular funds to religious uses, but their embezzlement by private persons. He understood that all Muhammadans were in favour of some authoritative supervision of the endowments, secular and religious. When the religious objects of a foundation were adequately provided for, why should not the surplus be assigned to education?

Mr. Nolan observed that the question which the *futwah* before them professed to answer was "where a moslem makes a *waqf* of certain lands for the Talibul-ilm (students), is the income thereof to be devoted exclusively to students of religious knowledge?" But the point for the decision of the Committee was more complicated than this, as there was no such thing, in fact, as an endowment "for students," without further indication of the founder's intentions. The Committee had received forty one *touliatnamahs*, founding endowments supposed to be to some extent of an educational character. Except in the case of a few modern foundations, these always stated that the endowment was left to maintain a mosque, tomb, khanka or mausoleum; and where education was mentioned, it was as a subsidiary object, to be promoted together with the relief of travellers and so forth, in connexion with the mosque or other such institution. In nineteen cases, including those of the Mohsin and Sasseram endowments, where so much had been done to promote learning, education was not mentioned at all, and expenditure on it could be reconciled with the foundation deed only in so far as education is an adjunct to religion The trustee might be permitted, if so minded, to spend money left for a mosque on a school attached to the mosque but he could not be compelled to do so; at the most he had a discretion. The speaker considered that it would be a difficult and invidious operation to separate the funds thus assigned for religious education from the religious endowments, of which they formed a vital part, and to devote them under the supervison of a Central Committee to a secular purpose. As to using the surplus funds of religious endowments for secular purposes, this was what had been done in the case of the Mohsin and Sasseram foundations, but it could hardly be defended as a general principle. The surplus of funds left for religion should be given to religion.

The President expressed a belief that the educational funds of an endowment could be separated from the religious more easily than Mr Nolan thought. For instance, there was the small endowment of Roman Bibi, No. 5 on their list left "to be spent in Ramzan, the two Eeds, the Fateha Dowazdaham Mohurrum and the Shab-i-barat on charity, saving the poor and hungry from the severe pains and tortures of thirst and hunger, and on the maintenance of students." Why could not the amount left for maintaining students be spent on students of English? In Syed Ali Ashruf's endowment, No. 7, the money was left for "hospitality, charity, doles, medicines, maintenance of school and mosque, and other good and virtuous acts." In No. 9 Rs. 50 a month was assigned for the support of a Madrassa. It was true that in many cases the *touliatnamahs* left the trustee a discretion to spend the money much as he pleased, and in these it would be difficult to compel him to support secular education.

The *fatwah* he considered of great importance, and he would like a reference to the authority quoted in it Having indicated a necessary correction in the translation, he stated that he would like to see the opinion given there examined, as, if true, it seemed inconsistent with any action in the direction of applying the funds of foundations to English education

Nawab Bahadur Abdul Latif said that the Muhammadan Literary Society had been instrumental in procuring most of the modern foundations for English education. Why, then, should its members oppose a proposal to get as much money as possible for that purpose from the old endowments, except under the influence of a conscientious belief that such a course would be inconsistent with the wishes of the founders and with Muhammadan law? The first of the endowments specified by the President was religious, inasmuch as it was to be spent at religious festivals, and as it was provided that no *impious* man should remain mutwalli The education contemplated was an inseparable part of the religious bequest. The other two cases quoted by the President were those of modern foundations, and in them there was no room for reform, as the money left for education was duly spent on it.

Mr. Nolan then proposed that Government be moved to extend the term of the Committee, which expired with the month of March, to the end of July. The facts had been ascertained, and opinions on them had been formed, so that the Committee was now in a position to report. But the Government of India had desired the several Presidency Committees not to report without consultation among themselves, and it was therefore necessary to await the result of the investigation which was being made in Madras. This was the less objectionable, as the continuance of the Committee did not involve any expense whatever.

The President observed that the proposed extension was necessary, but that he saw little prospect of the Committee being able to recommend any useful action. Government was opposed to what the Muhammadans desired—the general supervision of all religious endowments, and the enquiry seemed to show that in the face of the *futwahs* produced, of the facts disclosed, and of the strong opinion entertained by an influential section of the community, it would be undesirable to separate the educational from the religious portions of the endowments, with a view to a distinct system of regulation and control. The motion was agreed to.

P. NOLAN,

Secretary, Muhammadan Educational Endowments Committee.

Dated Calcutta, the 14th March 1887.

From—The Members of the Committee of Management of the Muhammadan Literary Society of Calcutta.

To—The Secretary to the Muhammadan Educational Endowments Committee.

WE have the honour to acknowledge the receipt of your communication No. 117, dated the 11th ultimo, with its enclosures, and at the outset to offer our thanks to your Committee for allowing our Society an opportunity of discussing a question which is of vital importance to the Muhammadan community at large.

2. From the proceedings of your Committee and the connected correspondence published from time to time in the *Calcutta Gazette*, we understand that the Government of India is desirous of ascertaining the measures, if any, necessary for the protection and preservation of endowments made by Muhammadans for educational purposes. There is no doubt that legislation on the lines of Regulation XIX of 1810, whereby the preservation of the corpus and the legitimate appropriation of the incomes of *all* endowments will be secured, is a great desideratum; but we fear that no appreciable good is likely to result from an enquiry limited to educational endowments. Not only are such endowments thinly scattered, but they cannot, consistently with the wishes of the grantors, be utilised in promoting secular education.

3. The Muhammadan Literary Society, which, ever since its establishment in 1863, has systematically laboured to impress upon the minds of their co-religionists the necessity of a liberal English education, and to remove all prejudices against it, would be the first to join in any movement intended to enable the Muhammadans to compete on equal terms with their fellow-subjects of other creeds; but we cannot help thinking that the suggestion of the Central National Muhammadan Association, to utilise for general education Muhammadan endowments which are based upon religious belief, will give rise to a discussion which had best be avoided.

4. The prejudices of the Indian Muhammadans against education in Western science and literature have materially diminished of late years, and they have come to know that there is nothing in the Muhammadan religion which stands in the way of the acquisition of such knowledge; but the majority of the Muhammadans will certainly object to the application of endowed funds in contravention of the wishes of the donors

5. The object of the Central National Muhammadan Association has not, as they say, been misrepresented; but it may be said to have been misunderstood, if it were not their intention to divert the proceeds of endowed property to purposes alien to the real intentions of the grantors. That there are good reasons for the misunderstanding no one can deny. From a perusal of the memorial submitted to Government by the Central National Muhammadan Association, and of their memorandum recently placed before your Committee, one can hardly avoid being impressed with the belief that they intended to contribute towards the costs of secular education from endowment funds; and it is in this belief on the part of the Muhammadans that the source of the hue and cry raised against the enquiry of your Committee is traceable. If the Central National Muhammadan Association had plainly told the public that their intention was simply the protection, and not the re-distribution, of endowment funds, we are sure not a single voice would have been raised against the action of your Committee; but, on the contrary, such action would be supported almost in every quarter.

6. Now, the principal points discussed in the memorandum of the Central National Muhammadan Association may be summed up as follows:—

(1) The study of European science and literature is not forbidden by the religion of Islam.

(2) An endowment or *wakf* may be made by a Muhammadan for the purposes of secular education.

(3) The word *talib-ul-ilm* is not restricted to a student of knowledge of divinity, but includes every description of students.

7. The first two points, we beg to submit, are foreign to the subject of the present discussion. In all Muhammadan countries the cultivation of arts and sciences has been patronised, and the Indian Musulmans also

have taken to the study of English. Nor has it been averred by anybody that the Muhammadan religion stands in the way of the general education of the faithful. It is likewise out of the question whether a *wakf* can be made for giving secular instruction. In our own days, prizes and scholarships have been founded by Muhammadans for the benefit of students of Western science and literature; and we are not inclined to argue the point in a manner that would discourage such liberality in the slightest degree. Every well-to-do Muhammadan should now come forward to assist his co-religionists in acquiring a thorough knowledge of what is now-a-days essential to the improvement of their condition in life.

8. As regards the third point, we beg to differ from the Central National Muhammadan Association as to the meaning of the word *talib-ul-ilm*, as used in theological treatises and in documents relating to Muhammadan endowments. The literal meaning of the word is not a "seeker of knowledge," but it means a "seeker of *the* knowledge." The definite article "*the*" limits the significance of the common noun "*ilm*" or knowledge, that is to say, it means a seeker of *the* knowledge which every Muhammadan, *male or female* is *bound by religion* to acquire. Hence, in the Muhammadan world, the word is understood to mean a student of divinity.

9. The quotations from the *Koran* and the *Hadis*, adduced by the Central National Muhammadan Association in support of the assertion contained in paragraph 4 of their memorandum, have nothing to do with the real matter under discussion, as would appear from the detailed examination of the sacred texts, which is separately embodied in Appendix A.

10. It is undisputed that the word *ilm** literally means knowledge; but the question is what the doctors of the Muhammadan law have understood by it in the compound word *talib ul-ilm*. What it really means is fully explained in the *fatwas* given by some of the most learned scholars of the day (all of whom have recently been honoured by His Excellency the Viceroy with the title of *Shams-ul-Ulama*), translations of which are appended and marked B, C, D, and E, and in the memorandum, marked F, drawn up by a member of our Society, and we fully concur in the views therein expressed. It will be noted that three of the appendices (C, D, and E) contain the opinions of leading *Mujtahids* of the Shiah sect.

11. With regard to the proposal for the formation of Central and Branch Committees with a view to exercise control and supervision over the *wakf* estates, we concur with the opinion expressed by two members of your Committee, that such Committees are not calculated to command the confidence of the generality of the Muhammadans, and that the functions which are intended to be entrusted to them would be better performed by European officials, with the aid of Muhammadan gentlemen commanding local influence.

12. Moreover, it is to be feared that an unpaid agency could hardly be expected to perform the work uniformly well. With the lapse of time, as the enthusiasm inspired by the novelty of the measure begins to flag, the interest taken in the matter might be slackened, the members might grow indifferent and less attentive, and in such cases the supervision would be anything but perfect or satisfactory.

* *Ilm*—*Lit.*—"To know; knowledge."
In Muslim Theology the word *ilm* is always used for *religious* knowledge. Abdul Haqq says it is the knowledge of religion as expressed in "the Book" (Quran) and the "Sunnah" (Traditions), and is of two kinds, '*Ilm-ul-Mabadi*,' elementary knowledge, or that relating to the words and sentences of the Quran and Hadis; and '*Ilm-ul-Maqasid*,' perfected knowledge or that relating to faith and works, as taught in the Quran and Hadis. *Hughes' Dictionary of Islam* (1885), page 200.

APPENDIX A.

In the fourth paragraph of their memorandum, the Central National Muhammadan Association adduce some quotations from the *Koran* and *Hadis* in support of the view that the word *talib-ul-ilm* means a "seeker of knowledge in all its branches." But an examination of the verses and traditions quoted would show that there is no indication in them of the sense in which they have interpreted the word *talib-ul-ilm*. The first verse علم آدم الاسماء كلها *'Allama adama al-asma-a-kullaha* means, "He taught Adam the names of all things." Of the four words composing the verse, not one means "knowledge in all its branches." Of course the word *talim*, from which *allama* in the above verse is derived, means to teach, and the word *ilm*, from which *ta'im* is derived, means "to know" or "knowledge." But these do not prove that the compound *talib-ul-ilm* means seeker of knowledge in all its branches, or of all to which the words *ilm* and *talim* can be applied. *Talib-ul-ilm* means seeker of *the* knowledge, and the particular knowledge which is meant by it will vary according to circumstances. In a book of philosophy it will denote one engaged in the study of philosophy; in a religious book or endowment deed it will mean "seeker of religious knowledge;" and so on.

The second verse runs thus:—

و اذ علمتك الكتاب و الحكمة *wa iz allamtuka al-kitaba wa al-hikmata.* It means, "and when I taught thee the book and the knowledge of religion." That in this verse the word *al-kitab* means scripture and not *Koran*, as shown in the Central National Muhammadan Association's memorandum, and that the word *al-hikmat* means knowledge of religion and not science, will be seen by a reference to the exegesis of the *Koran*, such as *Má álim-ut tanzil*, *Madarik*, &c. Even if the word *a-l-hikmat* be translated as science, it would mean, in the verse in question, the science of religion, and not science in general. If the Central National Muhammadan Association contend that the word *al-hikmat* here means "science in general," they must adduce proof that there was any incident in the life of Jesus Christ, to whom the above verse was addressed, which showed that he was taught by God any science except the science of religion. It will rather be found in the New Testament that science and philosophy have been pronounced to be "unprofitable and vain."

The third verse يوتى الحكمة من يشاء *yuti-al-hikmata-man yashao* means, "He giveth the knowledge (of religion) whomsoever He pleaseth." (Here it may be observed that the Central National Muhammadan Association have translated the word *al-hikmat* to mean *knowledge*, whereas in the second quotation the same word is rendered to be *science*.) The word *al-hikmat* in this verse also does not mean "knowledge in all its branches," but some particular knowledge, which, from the commentaries of the *Koran*, would appear to be the knowledge of religion.

Now the tradition of the prophet طلب العلم فريضة means "seeking of the knowledge (of religion) is obligatory," and not "seeking of knowledge in all its branches is obligatory." With regard to this tradition, it is plainly stated in *Kashf-uz-zunún* that the commentators of *Koran* and narrators of traditions explain the word *al-ilm* in the said *Hadis* to be the knowledge of *Koran* and traditions of the prophet; that the Doctors of Muhammadan law declare it to be the knowledge of what is lawful and what is unlawful according to religion; and that the students of scholastic theology aver that it is that knowledge by means of which the unity of Godhead is comprehended.

The second and fourth traditions quoted by the Central National Muhammadan Association are spurious traditions, which, according to his religion, no Muhammadan ought to quote without mentioning the fact of their being spurious. Such traditions cannot be accepted as authority.

The third tradition quoted by the Central National Muhammadan Association is علموا صبيانكم الرمي which means "instruct your children in archery." This only denotes that the word *ilm* can be used in connection with archery. There is, however, no contention as to the literal significance or application of the word *ilm*. Here the question is, whether the compound *talib-ul-ilm*, used in deeds of endowment, does mean other than a student of Divinity?

The passages quoted from *kashf uz-zunún*, in the fifth paragraph of the Central National Muhammadan Association's memorandum, are not exactly as they stand in the book itself. They have been partially altered without regard to grammatical correctness, and do not convey the original ideas of the author. The first passage given correctly would be—

المنظر الاول في العلوم الاسلامية واعلم ان العلوم المتداولة في الامصار على صنفين صنف طبعي للانسان يهتدي اليه بفكرة وهي العلوم الحكمية وصنف نقلي ياخذه عمن وضعه وهي العلوم النقلية

"Chapter I. Regarding Islamic knowledge.—And know that the subjects of learning in vogue in the land are of two kinds (mark the difference!)—one intellectual, which a man can acquire by means of mental faculties, and this is philosophical knowledge; and the other traditional, which a man receives from their authors, and these are called traditional learnings." Below this very passage, after mentioning some other things, the author of *Kashf uz-zunún* says:—

و هذه العلوم النقلية كلها مختصة بالملة الاسلامية

"and these traditional learnings, all of them, belong exclusively to the followers of *Islam*."

The second passage from *kashf-uz-zunún* also does not appear in its perfect form in the Central National Muhammadan Association's memorandum. But all that can be gathered from it is that the word *ulum* (plural of *ilm*) can be used in denoting sciences, and that a student ought not to despise the study of sciences. In regard to the first point, it has been already noticed above that the word *ilm* by itself means knowledge, and when *al* is prefixed to it, it means *the* knowledge: hence *talib-ul-ilm* means "seeker of *the* knowledge," and the particular knowledge meant by it, when used in theological works and endowment deeds, is, as already explained, the knowledge of religion. Now, as to whether it is proper to study philosophical works, and if so, under what circumstances, it is strange that the warning conveyed in the note just below the second passage quoted from *Kashf-uz-zunún* by the Central National Muhammadan Association should have escaped the notice of the members of that body. It runs thus—

اعلم ان النظر و المطالعة في علوم الفلسفة يحل بشرطين احدهما ان لا يكون خالي الذهن عن العقائد الاسلامية بل يكون قويافي دينه راسخا علي الشريعة الشريفة و الثاني ان لا يتجاوز مسائلهم المخالفة للشريعة وان تجاوز فانما يطالعها للرد لا غير *

"Know that the study of philosophical sciences and application to them may be lawful if two conditions be observed—

"*First*, that the student be not ignorant of the articles of Islamic faith; he should rather be well versed in religion and a steadfast follower of the noble *Shariat* (Muhammadan law).

"*Secondly*, that he should not go beyond the proper bounds in studying the questions repugnant to Muhammadan religion; but if he does exceed the due limit, he should study them simply with the intention of proving their fallacies, and for no other purpose."

APPENDIX B.

Translation of a Fatwa given by Shamsul-Ulama Maulavi Muhammad Saeed of Patna.

Question.—What do the learned Muhammadans say in explanation of the word *ilm* (knowledge) in the following Hadis:—

طلب العلم فريضة على كل مسلم و مسلمة

"It is binding upon every Mussalman, male and female, to seek the knowledge?" Which knowledge is meant by *ilm* referred to here? Does it include all the branches of learning, or only one kind of it? If the latter, what particular kind of knowledge is meant by it?

Answer.—In his work called *Musnad*, Imam Abu Hanifah has related the Hadis in full as noted in the question; but in *Mishkat*, it is related with the omission of the words و مسلمة. The meaning of *ilm* in this tradition, as stated by Shaikh Abdul Hack of Delhi, is that knowledge which Muhammedans are bound to learn agreeably to their conditions in life; as for instance, when a man embraced Islam, it became obligatory upon him to know the Creator and His attributes, to know the prophet, and to know other things, without a knowledge of which faith is not perfect. Again, when the time for prayer arrived, it became incumbent upon him to learn the rules of prayer. When the month of Ramazan came, it became obligatory upon him to learn the rules of fasting. When a man became possessed of property enough to necessitate the payment of *zakat* (a kind of religious tax), it became obligatory upon him to learn the rules regarding it; but if he died before the due time, and did not learn them, he will not be a sinner. When a man married, he became bound to learn the necessary obligations of a conjugal life, and so on. Further, Abdur Rauf Munawi Shafei, in *Taisir*, the commentary on *Jami Saghir*, says: "By *ilm*, in the above Hadis, is meant that knowledge which one should not neglect, such as the knowledge of the Creator, the prophethood of the prophets, particulars of prayers, &c., the knowing of which is obligatory."

The reason why a knowledge of religion is specially understood in the above is because the words كل مسلم و مسلمة (all Mussalmans, males and females) indicate that knowledge, which is strictly obligatory, and the knowledge which is strictly obligatory is the knowledge of religion.

Translation of a Fatwa given by Shamsul-Ulama Mufti Syud Muhammad Abbas of Lucknow (now of Garden Reach).

Question.—What do the learned Muhammadans say in explanation of the word *ilm* (knowledge) in the following Hadis:—

طلب العلم فريضة على كل مسلم و مسلمة

"It is binding upon every Mussalman, male and female, to seek the knowledge?" Which knowledge is meant by *ilm* referred to here? Does it include all the branches of learning, or only one kind of it? If the latter, what particular kind of knowledge is meant by it?

Answer.—The word *ilm* in the above tradition means knowledge of religion and its preliminaries, which are calculated to bring about salvation in the next world.

Question.—What do the learned Muhammadans say in explanation of the word *ilm* (knowledge) in the following Hadis:—

طلب العلم فريضة على كل مسلم و مسلمة

"It is binding upon every Mussulman, male and female, to seek the knowlege?" Which knowledge is meant by *ilm* referred to here? Does it include all the branches of learning, or only one kind of it? If the latter, what particular kind of knowledge is meant by it?

Answer.—By knowledge is meant the knowledge of the five religious obligations, and the knowing of what is lawful and what is unlawful according to religion.

APPENDIX F.

FROM a perusal of the papers published in the Supplement to the *Calcutta Gazette* of the 16th February 1887, it would appear that the lamentable mismanagement of *wakf* estates, as disclosed by the recent enquiries of the Endowment Committee, and the utter insecurity of such properties in the hands of indiscreet trustees, whose extravagances, in the absence of any check against malversation, have on various occasions been the cause of their being sold off as heritable properties in execution of decrees, call loudly for some supervision on the part of the Government to prevent misappropriation, and to ensure that the funds are applied to the particular purpose or purposes for which they were granted by the donors. But whether this supervision should be exercised through a Central Committee or the District Officers, it is a question for the Government to decide. All that one can wish in this matter, as a member of the Muhammadan community, is that the agency to be employed for carrying on the control may not be very expensive or untrustworthy.

It appears, however, that a great difference of opinion exists among Muhammadans as to how the funds should be applied when the *wakf* has been granted for educational purposes. The Central National Muhammadan Association, while avowing that they do not mean to devote the endowments to other purposes than those for which they were originally granted, urge that, having regard to the exigencies of the present situation, the income of endowments for education should be utilised in instructing the Muhammadans the language of their rulers, so that they might be enabled to compete on equal terms with the Hindus and other subjects of Her Majesty; and in support of the view that the adoption of such a procedure would be right and proper, they adduce (1) the opinion of Maulavi Naim of Lucknow, to the effect that "*tulbas* are those who acquire secular knowledge," and that "it is proper to learn the science of the ruling monarch, if such knowledge does not militate against one's religion;" (2) the significance of the word *talib-ul-ilm*, which they assert to be a generic term, meaning "seeker of knowledge;" and (3) the practice followed in other Muhammadan countries with regard to teaching of knowledge and sciences in general in mosques and madrassas founded by sovereigns, chiefs, and well-to-do people.

On the other hand the Hon'ble Maulavi Abdul Jubbar argues that all endowments in which provision has been made for the maintenance of *talib-ul-ilms* should, according to the wishes of the grantor, be solely devoted to the use of students of divinity, and not to the benefit of seekers of secular knowledge, inasmuch as the word *talib-ul-ilm* in *wakfnamahs* is intended to signify one engaged in pursuit of religious knowledge.

The point therefore to be settled now is, which view as to the proper disposal of endowment funds is correct, and can be safely adopted. There is no doubt that the present backward state of Muhammadans in respect of education stands in urgent need of amelioration, but will it be proper for the attainment of this much-desired object to have recourse to

the measure advocated by the Central National Muhammadan Association? The grounds on which the recommendation of the Association is based do not seem to hold good—

1*st*.—The statement ascribed to Maulavi Naim, that "*tulbas* are those who acquire secular knowledge," is, on the face of it, incorrect, and seems to be a garbled version of what the Maulavi is supposed to have said. The word *taluba* (not *tulba*) means only seekers, and as such it can be as well applied to seekers of secular knowledge as to seekers of religious knowledge. The second quotation from the Maulavi's statement is not also of much help. He says: "It is proper to learn the science of the ruling monarch, if such knowledge does not militate against one's religion." This is all very true; but it does not mean that endowment funds should be utilised in teaching "the science of the ruling monarch."

2*nd*.—The word *talib-ul-ilm* is stated to mean "seeker of knowledge," but any one acquainted with Arabic knows that it means seeker of *the* knowledge, and not knowledge in general. The quotations from the *Koran* do not at all prove that the word *al-ilm* means knowledge in general. *Al* in Arabic, like *the* in English, is generally prefixed to nouns to define what is indefinite. Now, what particular knowledge is meant by "*al-ilm*" in the compounds "*talab-ul-ilm*" and "*talib-ul-ilm*" as used in Muhammadan law books and religious works can be ascertained from the exegesis of the Koran and the traditions of the prophet. A reference to these will show, that the word "*al-ilm*" in such compounds means علم الدين "*ilm-ud-deen*" the knowledge of religion, or the knowledge which the prophet himself inculcated to his disciples. That this is the correct meaning of the word "*al-ilm*" will also be apparent by a little reflection on the meaning of the *Hadis* quoted by the Association itself طلب العلم فريضة which in its complete form is طلب العلم فريضة على كل مسلم (ومسلمة) or seeking of *the* knowledge, *i.e.*, the knowledge of the principles of Muhammadan religion and articles of faith, is obligatory on every Muhammadan male (and female). If the significance of the word "*al-ilm*" in the aforesaid *Hadis* be not restricted to a particular kind of knowledge, *i.e.*, knowledge of religion, which the prophet taught his followers, can it be supposed for a moment, that the prophet, who is admitted even by his opponents to have been a great genius of his age, declared to his followers that seeking of knowledge in general, including sciences, was *obligatory* on every true believer; while evidently it is beyond the capacity of ordinary men to acquire such universal knowledge. The two quotations from *Kashf-us-zunún* also do not prove that it is desirable or proper to defray the expenses of teaching sciences in general from out of endowment funds.

3*rd*.—The practice followed in other countries as to founding of madrassas, &c., for imparting education to Muhammadans in other than religious subjects from out of endowment funds should be substantiated by more trustworthy proofs than bare assertions of historians, whose information is not unfrequently derived from unreliable sources, and very few of whom have the means or the capacity of sifting the truth. Even if it were proved that such institutions were actually established out of endowment funds, it would remain to be shown that in these instances the endowments were not misappropriated; for, with regard to *wakf* among Sunnis, it is distinctly stated that it should be for a religious purpose, whereas the learning of languages of fire-worshipers, Manichæans, Mongols, and Hindus, except under special circumstances, can hardly be called a religious act.

Further, it will be seen from the following passage quoted from *Kitab-ul-wasaya of Alamgiri*, that the word "*al-ilm*" means only religious knowledge:—

واذا اوصى لاهل العلم ببلدة كذا فانه يدخل فيه اهل الفقه و اهل الحديث ولا يدخل من يتكلم بالحكمة *

"And when a man bequeaths (something) for *ahl-ul-ilm* in a certain country, the word *ahl-ul-lim* will include men conversant with Muhammadan law and traditions of the prophet, and not those who discuss religious matters philosophically."

Under these circumstances, it would appear that, as pointed out by the Hon'ble Maulavi Abdul Jubbar, the word "*talab-ul-ilm*" should be taken in its restricted sense of seeking the religious knowledge, and that the income of endowments set apart for *talib-ul-ilms* should, unless expressly assigned by the donor to the teaching of secular learning, be exclusively applied to the use of students of religious knowledge.

Moreover, it is to be borne in mind that as the Government does not undertake to provide for the religious training of the Muhammadans from out of general revenues of the country, and as there is no special priest class among Muhammadans as there exists among Christians and Hindus, it is very desirable—rather necessary—that, for the purpose of having always among Muhammadan communities some men well versed in religion, the inducements already existing for the acquirement of religious learning should not be done away with by encouraging at its expense the diffusion of secular knowledge, for the attainment of which other means are not wanting, if the Muhammadans would throw off their lethargy and avail themselves of those means. Steps should rather be taken to see that religious instruction is properly given in the madrassas, &c., supported by endowment funds.

APPOINTMENT OF MINISTERIAL OFFICERS IN THE PATNA DIVISION.

No. 1486, dated Bankipore, the 31st March 1887.

From—JOHN BOXWELL, Esq., Officiating Commissioner of the Patna Division,
To—The Chief Secretary to the Government of Bengal.

WITH reference to Government order No. 5646A, dated 28th December 1880, I have the honour to submit herewith a statement showing the number of vacancies, both acting and permanent, that occurred during the past year in the several offices in this Division.

2. The total number of vacancies which occurred during the last year in the several offices and departments in this division was 639. These vacancies were thus distributed—

In the Revenue and Magistrates' Offices	136
In Municipal Offices	20
In the Road Fund Department	24
In the Registration Department	29
In the Police Department	430
Total ...	639

The above appointments were filled up in the several offices and departments as follows:—

	By Beharis.	By Bengalis.	By others.
In the Revenue and Magistrates' Offices ...	119	17	...
In Municipal Offices	19	1	...
In the Road Fund Department ...	16	7	1
In the Registration Department ...	29	.	...
In the Police Department	421	8	1
Total ...	604	33	2

It will thus be seen that 94·5 per cent. of the vacancies were filled up by the natives of Behar, while 5·1 per cent. of the appointments were given to Bengalis, including one domiciled in Behar.

Statement showing the number of vacancies, both acting and permanent, that occurred in the districts of the Patna Division during the year 1886.

THE EMBANKMENT REPORTS FOR 1885-86.

No. 6831.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

IRRIGATION.

Dated Calcutta, the 25th April 1887.

RESOLUTION.

READ—

THE EMBANKMENT REPORTS FOR 1885-86.

The grant for the maintenance of embankments for the year was—

				Rs.
Government embankments	...	...	...	7,40,000
Tuccavee ditto	...	...	...	1,52,900
		Total	...	8,92,900

The expenditure was as follows:—

				Rs.
Government embankments	...	...	...	5,42,744
Tuccavee ditto	...	...	...	95,598
		Total	...	6,38,342

The accompanying table shows the lengths of embankments in each civil division and district maintained either directly by Government or at the cost of zemindars. The embankments in the D schedule are maintained at Government cost. Those classed as tuccavee are maintained at the cost of zemindars, either under contract for a fixed term of years or under annual estimates for repairs, the cost in both cases being recoverable, but in the former only are the charges provided for in the budget grant. The expenditure on the latter is shown in the marginal notes of the table. The reports show that in the several districts embankments were maintained in good order, and damage from high floods occurred only in Moorshedabad and Midnapore. Breaches, however, in these two districts were so extensive that they have formed the subject of separate reports, and need only be briefly alluded to here. In the Moorshedabad district, the Bhagirutti left embankment breached at Laltikuri, causing the extensive floods which swept the country and damaged the Eastern Bengal State and Central Bengal Railways. The calculated discharge of this breach was 50,000 cubic feet per second. It is proposed to construct a retired line here, as many points are threatened by erosion; but in the meantime a small retired line has been made.

In the Midnapore district, both D schedule and tuccavee embankments suffered severely from a simultaneous rise of the Cossye and Selye rivers. Distress was occasioned, which called for relief measures, and considerable damage to crops occurred. The country is, however, so extensively embanked that in high floods breaches invariably occur, and the application of any remedy would be a matter of great difficulty.

The average mileage rate for maintenance is below that for last year, being Rs. 180 for D schedule and Rs. 166 for tuccavee embankments against respectively Rs. 186 and Rs. 120 for last year.

By order of the Lieutenant-Governor of Bengal,

C. W. I. HARRISON, *Lieut.-Col.*, R.E.,

Explanation. The normals of air pressure and temperature are the arithmetical averages or means of the reading during the same period for the past t
The [illegible] expressed as a percentage, saturation being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numb
are the [illegible] the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past
station in the [illegible] by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

CALCUTTA, *the 22nd April* 1887.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 22ND OF APRIL 1887.

At the commencement of the past week the weather was slightly cooler than usual, and southerly or easterly winds prevailed over the whole of Bengal and Behar. The air was hence not so dry in Behar as it generally is in April. On the 18th westerly winds were re-established in Central and South Behar, and gradually extended eastwards. The day temperature hence increased rapidly in Behar, and the air became much drier, in consequence of which the night temperature at first decreased slightly, and began to rise again on the 20th and 21st. On the 18th, 19th and 20th the westerly winds in Behar gained rather rapidly in force, and instead of being continued across Chutia Nagpur as north-west winds, they forced their way across West into Central Bengal on the aftern on of the 20th, and produced an unusually rapid increase of temperature on the 21st and 22nd, and a very considerable decrease of humidity. The distribution of winds during that period was unusual. Southerly winds prevailed in South Bengal, south-east winds in the northern districts of East Bengal, easterly winds in North Bengal and North Behar, westerly and north-westerly winds in Central and South Behar and the northern districts of Chutia Nagpur, and in West and Central Bengal, and south-south-west and south-west winds in Orissa and at the mouth of the Hooghly. The winds were light and variable in direction in Central Bengal. In all other districts they were above their average force. These changes accompanied a rapid fall of the barometer during the week, which was greatest in the neighbourhood of the hills in Northern Bengal. Some local showers fell at the commencement of the week in the districts bordering on the hills in North and East Bengal, and also on the last day of the week in the same districts. The rainfall of the week was hence below the average over the whole of the province, excepting in Commillah, Mymensingh, Rungpore, Julpigoree, Cooch Behar and Darjeeling, and was practically nil over South-West and Central Bengal, Behar and Chutia Nagpur.

Pressure—Gave way almost continuously during the week. The barometer was from ·05″ to ·07″ above its normal height at the commencement of the week. The fall was most rapid on the 17th and 18th. The total fall during the week averaged ·23″ in North Bengal and North Behar, ·22″ in South-West Bengal, ·20″ in East Bengal, Central Behar, and Orissa, ·17″ in South Behar, and ·13″ in Chutia Nagpur, where it was least The mean pressure was hence considerably below the average pressure of the week. The deficiency was ·06″ in South and East Bengal and South Behar, ·05″ in Orissa and North Behar, and ·03″ in Chutia Nagpur.

Temperature.—The changes of temperature varied to an unusual extent in different parts of the province. In Eastern Bengal, and the northern districts of North Bengal, which received occasional showers during the week, the fluctuations were small, and the temperature at the end of the week was almost identical with what it was at the beginning of the week. Over the remainder of the province a considerable increase of temperature took place, which was most marked in South-West Bengal. In that division the maximum temperature at the end of the week was from 13° to 17° higher than at the commencement of the week, whilst the minimum night temperature increased from 1° to 5° in the same interval. The maximum temperature increased during the week in North Behar from 7° to 13°, in South Behar from 8° to 12°, in Chutia Nagpur 5°. The minimum temperature increased slightly in that area during the week (from 0° to 4°). The mean maximum temperature was slightly above the average in South Bengal and Orissa, and slightly below it in Behar and Chutia Nagpur. The unusual dryness of the air in South-West Bengal and Orissa during the latter half of the week reduced the night temperature below the average, but in Behar, Chutia Nagpur, East Bengal, and also at Darjeeling, the night temperature was from 1° to 3½° above it. It will thus be seen that the variations in the day and night temperature were opposite in character, and hence the mean temperature of the week differs very slightly from the normal. The mean temperature was practically normal in South-West Bengal and North Behar, 1° below the average in Orissa, and 1° above it in East Bengal, South Behar and Chutia Nagpur. The highest maximum temperature recorded in the province during the week was 106·9° at Cuttack and at Midnapore on the 22nd.

The following table gives temperature data for eight representative stations for the past week :—

Humidity.—The chief feature in this element of meteorological observation was the very large decrease which accompanied the extension of westerly winds into Central Bengal on the 21st and 22nd. The influence of those winds was felt as far east as Jessore. The following data illustrate the unusual dryness of the air on these days in South-West and Central Bengal :—

Station.	10 A M. Humidity.

Rainfall.—The rainfall of the week was not large, and was almost entirely confined to the northern districts of North Bengal and East Bengal. The Rungpore, Julpigoree, Cooch Behar, Purneah, and Darjeeling districts of North Bengal, and the Mymensingh district of East Bengal, received light to moderate showers on the 16th, 17th and 18th. The heaviest fall during this period was 1·03 inches at Dinhatta in Cooch Behar. Local showers fell in the southern districts of East Bengal on the 18th and 19th. Agartola received 3·72 inches on the 19th. Heavy showers fell in the northern districts of North Bengal on the evening of the 21st, when the Julpigoree district received an average of one inch. Kurigram (in Rungpore district) registered the largest amount, 1·82 inches, for that day. The only districts in which the rainfall of the week exceeded one inch are—Commillah (1·81 inches), Julpigoree and Cooch Behar (1·67 inches), and Darjeeling (1·24 inches). The Mymensingh, Rungpore, Dacca, and Backergunj districts received average amounts varying between half an inch and an inch. The rainfall in all other districts was very small, and was nil over the greater part of Behar.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 22nd of April 1887 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE table annexed to this memorandum shows—

1. That during the week ending 9th April 1887, the birth and death rates of the principal Municipalities in Bengal amounted to 19·9 and 30·7 per 1,000 of population, respectively, as opposed to 17·8 and 28·3 per 1000, respectively, in the preceding week ending 2nd April, indicating a fair advance in the registration of both the events

2. That these events were returned at the highest rates by the following Municipalities :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Comillah	61·6	Naraingunge	99·4
Beauleah	57·8	Serampore	74·6
Naraingunge	41·4	Gya	68·3

Bowel-complaints	2·8	2·0
Injury	·2	·5
Other causes	6·5	5·8

4. That while only one town (Puri) exhibited fatal results from bowel-complaint to a noticeable extent, viz. at the rate of 23·1 per 1,000 of population, and the casualties from injury were nowhere higher than normal, the undermentioned Municipalities returned the highest death-rates from the rest of the diseases, viz from cholera, small-pox, fever and the maladies classed under the head of " Other causes " :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans alone, which cannot be considered as a basis of calculations owing to the results of the census under this head not having been recorded under the authorities' [illegible]

INCREASE.

	Tons.
Coal	159
This increase is due to larger import on account of excessive brick-burning.	
Grains—Rice	228
The increase in this is due to plentiful crops and larger export from intermediate stations—Bokhara, Neoda and Takipur.	
Jute	45
This increase is due to greater demand and the river communication being stopped for want of sufficient water.	
Gunny-bags and cloth	21
This increase is due to increased grain traffic.	
Oilseeds—Mustard and rape	75
This increase is due to greater demands in the market.	
Railway plant and rolling-stock	16
This increase is due to greater quantity of materials carried during the month.	
Sugar, drained	16
This increase is due to greater demand.	

DECREASE.

	Tons.
Silk, raw—Indian	42
This decrease is due to less import of tussur cocoons during the month.

EAST COAST OF INDIA.

BAY OF BENGAL.

MADRAS COAST.

THE following information has been received from Commander Carpenter, R. N., in charge of the India Marine Survey :—

Rockingham Patches.—Lying close off the Coast, 25 miles South of Madras, consist of a few rocky heads inside the 10-fathom line. The shoalest water found on them was 11 feet and the outermost danger, 3½ fathoms rock, lies on the following bearings, at one-and-a-quarter miles off the shore :—

Red light tower ...	S. W. by S.,	distant	5¼ miles.
Tripalur Hill	N. W. by W.	„	4¼ „
Extreme of Covelam point . .	N. ¼ E.	„	6 „
Finger Peak	S. W. by W.¾ W.	„	11¾ „

Vessels should not get into less than 12 fathoms in passing this danger. Tripalur Hill is low, and has a temple on it that looks like a bungalow.

Finger Peak, which is not conspicuous when bearing northward of West, is the southernmost part of all the high land visible.

The Red light tower is a conspicuous object by day. The distance off shore judged by eye is very deceptive.

Pulicat shoals.—The 4-fathom mud bank reported by the S. S. *Clan Mackintosh*, in June 1884, to exist in the vicinity of these shoals, and six miles off the land, was lately searched for in vain by H. M. I. M. S. *Investigator*, and may be removed from the charts.

Bearings are magnetic.—See Admiralty Charts, Coromandel Coast, Sheets III and IV, Nos. 71*c* and 71*d*.

Red light on pier head.

WITH reference to this Department Notice to Mariners, No. 17, dated 31st March 1887, relative to the exhibition of the red light on the pier head at the port of Gopalpúr, the Port Officer, Madras, has given further notice that the light will be visible in every direction seaward. The pier works have now extended 700 feet seaward and the depth of water at L. W. F. C. is from 10 to 12 feet Nearly the same depth will be found when the pier is completed.

The light will be moved seaward as the pier extends, and will mark the extreme end.

			600	400

Minimum required in all papers collectively.

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burmah only. Candidates will not be examined in any of the Calcutta offices.

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10, and the following certificates. Certificates may be submitted in original or true copies, attested by an officer of the Engineer or Accounts Branch, but no certificate will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).

(2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ).

(3) Certificate that the application is in candidate's handwriting. It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons, who are already employed in the department.

DISTRICT ROAD FUND.

NOTIFICATION No. 146.

The 29th April 1887.

THE annual accounts and reports of the Road Cess Committees of the districts of Hazaribagh, Lohardugga, Manbhoom, and Singbhoom for the cess year 1885-86, together with the remarks thereon of the Commissioner of Chota Nagpore, are published for general information.

W. B. BEATIC,
Under-Secretary to the Government of Bengal
P. W. Dept.

No. 93DR., dated Hazaribagh, the 31st December 1886.

From—COLONEL C. H. GARRETT, Chairman, District Road Cess Committee, Hazaribagh,

To—The Commissioner of the Chota Nagpore Division.

I HAVE the honour to submit herewith the annual accounts and report of the District Road Fund operations for the cess year ending 30th September 1886.

2. At the commencement of the year under report the *personnel* of the District Committee consisted of twenty-four members. This number was reduced to twenty-two, owing to the decease of two of the non-official members during the year. * * * A summary of the businesses transacted at the meetings is given below:—

(1)—Passing of annual accounts and report for the cess year 1884-85.

(2)—Consideration of feeder-roads to be constructed or improved in the district in connection with the Bengal-Nagpore Railway.

(3)—Discussion with regard to the suggestion of the Superintending Engineer made in his letter No. 422, dated 22nd March 1886, for the improvement of the road leading from Koobrie Nulla to Chattra.

(4)—Passing the budget estimates of receipts and expenditure for the cess year 1886-87, and determining the rate at which the cess is to be levied during that year.

(5)—Distribution of village road grants and other miscellaneous matters.

3. The accounts of the Committee were regularly audited and passed monthly by a Sub Committee, consisting of the Vice-Chairman and two other members of the Committee.

4. *Branch Committees.*—There is only one Branch Committee in the district, viz, at Giridhi. The number of meetings held during the year was six against eight in the year preceding, and the average attendance of members was 4·66.

5. The current demand on account of cess on lands and mines for the year was Rs. 45,526, and the arrear demand from last year Rs 1,986, making a gross demand of Rs. 47,512 for realization. Out of this sum, Rs. 50 having been collected in advance during the previous year, the actual collections of the year including arrear and current demands, amounted to Rs. 47,283, leaving a balance of Rs 179 uncollected at its close. Besides the collections stated above, Rs 76 was collected as advance for future years. Thus the result of collections will be seen to be highly satisfactory as the balance at the end of the year was very small in comparison to that which remained at close of the year preceding, the percentage of collection on current demand being 104·02.

6. *Original works*.—The works executed during the year under this head were the parapet of the Lallabund bridge on the Hazaribagh and Chattra road, the earthwork on its approaches; the completion of earthwork on the Burhee and Gawan road, three-fourths of which were done up to the end of last year; the sinking of a well at Lepo, partially done in 1882-83, and a cart serai at Bugodur on the Grand Trunk road. The Branch Committee at Giridi have also constructed an inspection bungalow at Gawan, and some culverts on the sub-divisional village roads

7. *Repairs*.—All the metalled and fair-weather roads, aggregating 352 miles, viz., 37 miles of metalled, 32 miles of gravelled, and 283 miles of kutcha roads, have been maintained in fair order, *i.e.*, as well as they could be kept up with the limited funds at the disposal of the Committee.

8. *Village roads*.—No new village road was constructed during the year. The existing 32 village roads in the head-quarter's sub-division, aggregating 146 miles, were repaired at a cost of Rs. 3,500, and made practicable for sugar and cart traffic.

9. It is desirable that some of the steep gradients along district and village roads should be improved, and a few miles of the former metalled or gravelled every year as funds permit.

10. The works in the head-quarter's sub-division were, as usual, executed under the supervision of the District Engineer, and those in the Giridi sub-division under that of the Branch Committee, who also entrusted the District Engineer with the repairs of some of the roads under them.

11. *Trees*.—The trees planted out in previous years have been maintained. Eighty-five mahogany plants were transplanted on the roadside during the year, of which 20 perished after transplantation, and the rest are doing well.

12. *Nursery Garden*.—A quantity of *eucalyptic* seeds, received for experiment from the Director of Agriculture, was sown. They germinated partially, and about 400 plants have grown to the height of about 3 to 4 inches

13. *Staging bungalows*.—There is only one staging bungalow in the district at Ramghur on the Ramghur and Gola road. The receipts from this bungalow was Rs. 87-4, and the cost of its maintenance Rs. 243-15-9 during the year.

14. All the works, excepting the maintenance of trees, were done by contractors. The Sub-divisional Officer of Giridi reports that the works done in his sub-division by the contractors were not very satisfactory. He also remarks that, as a rule, the members of the Branch Committee do not interest themselves much in the work, most of which devolves on himself as Chairman of the Committee

15. *Establishement*.—The District Engineer, Mr. Gantzer, is a thoroughly efficient officer, takes interest in his work, and looks well after his roads. He gave entire satisfaction during the year under report. The staff under him also worked fairly well during the year.

JADU NATH MOOKERJEE,

Ex-Officio Member, for Vice-Chairman.

No. 125 DR., dated Ranchee, the 10th January 1887.

From—E. G. LILLINGSTON, Esq., Deputy Commissioner and Chairman, District Road Cess Committee, Lohardugga,

To—The Commissioner of the Chota Nagpur Division.

I HAVE the honour to submit the following report on the operations of the District Road Fund during the year ending 30th September 1886.

* * * * *

3. During the year under report there were ten meetings of the District Commitee of which five were special and five ordinary; one ordinary meeting was adjourned for want of a quoram. The average attendance was 4 against 7 of the preceding year. It will be observed that the attendance of both official and non-official members of the District Committee during the year under report was unsatisfactory, for out of four official and five non-official members, one official and one non-official did not attend six consecutive meetings. The names of the non-official members who failed to attend six consecutive meetings has been struck off the list under section 115 of Act IX (B.C.)of 1880. No new members have yet been appointed in the places of those who have ceased to be members of the District Committee under section 115 of the Cess Act during this year, and the one previous to it.

* * * * *

The attendance of the members of the Branch Road Cess Committee of Palamow was also unsatisfactory.

4. A summary of the business transacted at the meetings of the District Committee is given below—

(1). Preparation of the budget estimate for 1886-87.
(2). Audit of annual accounts and consideration of the annual report for 1884-85.
(3). Passing estimates of different works for 1885-86.
(4). Consideration of Superintending Engineer's remarks after his inspection of district roads.
(5) To frame rules for taking security deposit from the Overseers, Sub-Overseers and road sirkars employed under the Road Cess Committee.
(6). To dispose of applications from the contractors, and other miscellaneous works.
(7). To accept tenders submitted by the contractors for the repair work of the cess year 1885-86.

5. Baboo Asutosh Gupta, Assistant Magistrate and Collector, having been transferred from the district, the office of the Vice-Chairman was held by G. W. Place, Esq., C.S., Joint Magistrate and Deputy Collector, from 10th September 1886 to the end of the cess year.

6. The accounts of the year were duly examined and audited by a Sub-Committee consisting of the Vice-Chairman and two other English-knowing members appointed under section 179 of the Cess Act, whose report shows that every item was found correct and that the cash-book balance agreed with that of the treasury.

7. The demand on account of cess on lands and mines during the year amounted to Rs. 51,155 against Rs. 51,179. The decrease of Rs. 24 is owing to the omission of the demand from the Suna Tea Estate, which was remitted during the the last year under Board's No. 263A., dated 14th July 1885, from the demand of the year under report.

8. The total amount recoverable during the year under the head of cess on lands and mines, including arrears of last year, was Rs. 51,324. Out of this amount Rs. 51,253 was collected, the balance outstanding at close of the year being Rs. 71, of this Rs 3 was remitted being irrecoverable. There is an increase in the amount of collection under other heads which is principally due to the collection of copying fees in cash.

9. The cess was levied at the maximum rate. There was no difficulty in collecting it at head-quarters. In the Palamow sub-division also the payments appear now to be more punctually made than before. The tenure-holders seem to be beginning to see that the recovery by the certificate procedure is speedy and certain, and that it is better to pay up punctually.

ORIGINAL WORKS.

10. *Original Works Head-quarter Sub-division.*—On the Ranchee-Lohardugga road one permanent masonry bridge of four spans of 25 feet each has been constructed during the year over the Pandri stream on the 4th mile.

11. In accordance with the recommendation of the Superintending Engineer, five Inspection huts at the sites noted in the margin, have been built for the convenience of the road cess subordinates employed to inspect the works during the rains, at a total cost of Rs. 352 only.

(1). At Jamchua on the 12th mile, Ranchee-Taral road.
(2). At Nagri on the 12th mile, Ranchee-Palma road.
(3). At Kamdera on the junction of Ranchee-Palkote and Khunti-Kamdera road.
(4). At Gamharia on the 12th mile, Sambalpur road.
(5). At Bhandra on the 86th mile, Palma-Lohardagga road.

12. *Surveys.*—On the Ranchee and Bandgoan road the survey and level of the diversion line have been finished, but no provision could be made in the current year's budget estimate for the execution of the work for want of funds. Some portion of the Ranchee and Chandil feeder-road has been surveyed during the year under report.

13. *Plantation.*—Very little has been done in plantation work during the last year, only the plants which died have been renewed.

REPAIRS.

14. *Repairs Head-quarters Sub-division.*—For want of funds, maintenance works have not been executed to the desired extent, and the roads noted in the margin, have only been kept passable during the year under report. The improvement of the Ranchee and Chandil road has been kept in view. Five temporary wooden culverts have been replaced by culverts with dry rubble masonry abutments, and platforms of flagstones, which in strength are as good as pucca culverts; one timber tapped culvert of 17 feet span has been substantially repaired on the 5th mile of the Ranchee and Chandil road. But scarcely anything has been done in Palma Lohardugga, and Bundu and Jhalda roads. In the former it has been decided to abandon the diversion which was constructed by the late District Engineer, Mr. Naidu, and in the latter, order has been issued to align the road, and utilizing the diversion made by the late District Engineer, Mr. Naidu, and to keep to the present crossing of the Subarnakha river at the boundary of the district. This work will be taken in hand as soon as the funds permit.

PALAMOW SUB-DIVISION.

Daltongunge and Latehar road, 48 miles.—From the 30th mile to the boundary of the Sub-division, a distance of about 16 miles, with the exception of a small portion on the 30th mile, was repaired by new earthwork, drain cutting, surface-repairing and temporary wooden bridges. No new trees were planted on this road, but the old ones were maintained. The road has been made thoroughly passable through the whole length. This is the most important road, because it connects the head-quarter with the Palamow Sub-division.

Moharajgunge road, 44 miles.—From the 8th to the 26th mile *i.e.*, up to the river Banki, the road has been made passable by new earthwork, side drains, and surface repairing. From Banki to Chatterpur, on the 30th mile, only petty repairs were done to maintain the old road, and only surface dressing was done on the portion between Chatterpur and Moharajgunge. A new diversion was commenced but not completed. Temporary wooden bridges were also constructed in many places.

Garwa road, 20 miles.—Surface dressing was done throughout the whole length of the road; earthwork and drain cutting were also executed in places, and one temporary wooden bridge was constructed.

For want of funds, maintenance works have not been executed to the desired extent throughout the Palamow sub-division; only surface repairs were done on the Daltongunge, Behar and Pankey roads during the year under report.

15. *Village roads.*—One village road has been opened in head quarter Sub-division during the year under report, but could not be completed owing to some dispute about lands. In the Palamow sub-division the whole amount allotted under this head was used for surface repair, clearing sides drains, constructing temporary culverts and maintenance of trees.

16. *Accounts.*—The monthly accounts of the road fund and of the District Engineer's office were examined by the Vice-Chairman alone, as it was found difficult to procure the attendance of two other members to examine them as was reported last year.

17. The Local Auditor inspected this, and the District Engineer's office on the 12th February 1886.

18. The establishments required under the Road Cess Act are :—

(*a*) —Establishment for collection of revenue.
(*b*).—Committee's office establishment.
(*c*.)—Engineering establishment.

19. The establishment for collection of revenue at head-quarter consists of one head clerk and accountant, one assistant clerk, one mohurir and one peon. These officers also do the work connected with the Committee's office for which there is no separate establishment. The establishment under the Sub-divisional Officer of Palamow consists of one clerk, one mohurir and one Peon.

20. The Head Clerk and Accountant, Babu Nundo Laul Chatterjee, has continued to give satisfaction in the performance of his duties.

21. The District Engineer, Babu Jogendro Noth Ghose, has lately obtained a change of appointment with the District Engineer of Backergung. The latter joined his post on the 30th November 1886, and I have not yet seen any of his work. I was dissatisfied with the manner in which the late District Engineer exceeded the budget allotments, and thus threw the accounts into confusion.

23. The District Engineer reports that out of the establishment employed under him only one Suboverseer and the clerk under him have worked well.

* * * * * *

25. The works have all been executed by contract during the year under report, and the small sums advanced to contractors and planters have been adjusted, except in a few disputed cases.

26. Babu Asutosh Gupta, Assistant Magistrate and Collector, was Vice-Chairman up to 10th September 1886, and G. W. Place, Esq., C.S., Joint Magistrate and Deputy-Collector after that date.

Annual Report of the District Road Cess Committee of Manbhoom for the cess year 1885 86.

1. *Working of cess Act IX (B C) of 1880.*—Statement A will show the demands, collections and balances of cesses for 1885 86, as compared with the previous year. The increase in the demand of cesses on lands and on mines, jungles, &c., is owing mainly to the increased valuation under revision of the last revalution; also partly to the new separate assessments on account of jungles under Chapter V of the Act The percentage of collections to demand of cesses on land is the same as in the previous year, viz, 99 per cent. The decrease in the percentage of collections of cesses on mines and jungles is due to the fact that the people who have for the first time been assessed on account of their jungles were irregular in their payments, and nearly in every case certificate procedure had to be adopted for realization of dues; however, this decrease is overbalanced by the increase in the demand during the year under report. The remissions of Rs. 39 on account of cesses on land, and Rs. 166 on mines, &c., were sanctioned by the Board of Revenue in their letters Nos. 22A and 260A, dated 25th January and 30th August 1886, respectively. The total collection made previously in advance was Rs. 836 against Rs. 137 during the previous year. The difference may be explained by the fact that the collections which were made according to the enhanced demand under the re-valuation in 1882-83 had to be adjusted subsequently with reference to the demand under the old valuation, the surplus being carried over to the credit of the succeeding years, in consequence of the re-valuation being quashed by the Board of Revenue

2. *Working of the Committee.*—The Committee met 13 times during the year, and there was no meeting without a quorum. * * * * *

The following is a summary of work done by the Committee during the year under report:—

(1) Passing monthly Road Fund Accounts, audited by a standing Sub-Committee every month.

(2) Preparation of a revised budget estimate of income and expenditure for the year under report, under orders of the Board of Revenue, owing to the revised re-valuation coming into effect from the commencement of the current cess year 1885-86.

(3) Discussion over renewed applications for increase of pay from the District Engineer and Accountant, and passing of the same.

(4) Passing of the annual accounts and report of cess year 1884-85.

(5) Discussion over District Engineer's letter No. 108, dated 20th April 1886, reporting that, owing to no provision having been made in the revised budget estimates for the repairs of the Jhaldah and Roghoonathpur cart serais, and suggesting that the Commissioner be asked to sanction an additional amount of Rs. 500 for the repairs of the two serais, and recommendation to the Commissioner for sanction of the same.

(6) Discussion over proposed draft bye-laws laid before the Committee by the Chairman and submission of the same through the Commissioner for the sanction of Government.

(7) Passing of the budget estimates of receipts and expenditure for the cess year 1886-87, and consideration over Sub-overseer, Babu Banko Bhary's application for increase of pay, postponement of the same on account of some preliminary enquiries which had to be made to Executive Engineer.

3. *Branch Committees*.—None in the district. Maintenance of village and other roads in the Govindpur sub-division being under the management of the Sub-divisional Officer, who draws cheques against allotments made in the budget annually. The cheques, &c., being signed and countersigned by the Chairman and Vice-Chairman of the Sudder subdivision.

4. *Working Establishment*.—There have been no changes during the year under review. *Babu Nanda Gopal Banerjee, District Engineer*, as in former years, performed his duties to my entire satisfaction, and I endorse the same good opinion of him as in former reports. I am glad to record that the increased pay he asked for has been sanctioned.

Mr. G. V. Thompson still continues as Accountant, he has worked well, keeps his books and accounts neatly and correctly. I am glad to note that his pay has also been increased.

Babu Kala Chand Singha, clerk in the District Engineer's Office, discharged his duties efficiently, and to the entire satisfaction of the District Engineer. I regret, however, *Sub-overseers, Baboo Banko Behary Mitter and Rohimdad Khan*, are reported by the District Engineer as being careless and negligent of their duties.

5. *Works done during the year*.—In Appendix B is shown abstract of all works done during the year and their respective cost

(a) *Sudder Sub-division*.—The provision under head "Original Works" consisted of, (1) making a new approach to the Subornorekha river, (2) gravelling a portion of the Roghoonathpur and Bancoora road, and (3) construction of two pucca wells, one in the compound of the cart serai at Doobra, the other in the bungalow compound at Chandil. Of these the approach to the Subornorekha was the most important. The total estimated cost is Rs 2,067-4-8, but only Rs. 1,200 could be provided for expenditure during the year. With this amount the earthwork in the approach has been completed and a good quantity of materials for other works has been collected. The approach should be open for traffic by the middle of April next.

The gravelling of a portion of the Roghoonathpur and Bancoora road has been completed, the last six miles (from Gourandi to the border of the district) which were entirely kutcha have been greatly improved. Of the wells, the one at Doobra has been made, but that at Chandil is still under construction. The work had to be stopped during the rains, as the sides slipped very much. The total estimated cost for original works amounted to Rs. 3,798-1-1.

Repair works in the Sudder sub-division were chiefly restricted to the maintenance of the different roads and partial improvements of the same. The road from Damdah to Burrabazar and Burrabazar to Koilapal, were greatly improved by gravelling muddy places, and by constructing some cheap stone culverts. The Roghoonathpur and Hazaribagh road was also improved in a similar way, and by making two rough causeways in two unbridged gaps, the approaches to these were also decently sloped down. The approaches to all unbridged *nullahs* and rivers on all the roads, especially those to the Kowari river on the Purulia and Chyebassa road, and Damdah and Burrabazar road, and to the Cossye on the Manbazar and Bancoora road, were very much improved with respect to gradient. The road from Purulia to Manbazar was also improved by gravelling, and a steep ghât on the 27th mile was to some extent eased down by rock cutting. The road from Hura to Manbazar (an old famine road taken up for repairs last year) was also greatly improved by earthwork and construction of cheap stone culverts making it fit for cart traffic all the way from Hura to Manbazar.

(*b*) The several existing *village roads* were kept in a decent condition, and the most important one (from Jhaldah to Torang) was improved in places. A new village road was started from Burrabazar, which will lead to Manbazar. Owing to difficulties in obtaining the land through which the line is to pass and from want of funds, not much progress was made during the year under report; but two of the most difficult river crossings have been improved. It is hoped that in a short time the portion between Burrabazar and Sindree will be thoroughly fit for traffic.

(*c*) *Cart Serais* were all maintained in decent condition, and one (the Bortoria Serai, was greatly improved by metalling the compound. On the abolition of the unions at Jhadah and Boghoonathpur, the cart serais in these two places were transferred to the Road Cess Committee—these were also properly maintained.

(*d*) The big *Bandhs* at Bangoordah (the embankment of which forms part of the Burrabazar and Koilapal Road) and Purnassani were also repaired and maintained properly. In both these the principal outlet drains were greatly scoured during previous year's heavy rains, the damage done was efficiently repaired by stone pitching and pucca rubble masonry floors.

The *Bujra Bandh* was in good condition, and required nothing done to it.

(*e*) The *Nursery* of young trees in Purulia was abolished during the year as it was found expensive to maintain, and disadvantageous for transplantation The maintenance of existing trees, and plantation of others on roads requiring them was carried out chiefly by the agency of contractors.

6. *Govindpur Sub-division.*—Nothing by way of "Original Works" done in this sub-division, only repairs to existing roads, &c. Of these, the most important is the road from Govindpur to Toondi, which was improved by laying down quantities of earthwork, and construction of cheap stone culverts; as far as funds permitted the approaches to unbringed nullahs were also improved, and the road is now fit for cart traffic all the way from Govindpur to Toondi. The Govindpur station roads were maintained in fair order.

The village road from Govindpore to Jherrya was thoroughly overhauled, and the road from Rajgunge to Nowagar *via* Khatras also improved.

The cart serais in the sub-division were maintained in fair order.

During the year under report, the staging bungalow at Nirshu was made over to the Police Department, and three cheap staging houses built, one at Madhoopur on the Burrabazar Koilapal road; one at Paroi on the Hura-Manbazar road, and the third at Rajgunge. These three houses were urgently wanted for the convenience of the road inspecting officers, &c.

Form of Audit Certificate.

WE hereby certify that the books and accounts specified below,* prescribed for the Road Cess office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1885-86, and they have been duly scrutinized by the Sub-Committee.

* Road Cess Office,—(1) Cash-book, (2) Cash Abstract; (3) Register of Monthly Receipts and Expenditure.
District Engineer's Office:—(1) Accounts, viz. (1) Files of Contract Certificates; (2) Files of bills for purchases or purchase lists, (3) Files of Day-books; (4) Files of Establishment bills; (5) Files of Acquittance rolls; II Books, viz:—(2) Register of bills passed; (3) Register of Works and Repairs; (4) Register of Tools and plant.

Also that the Treasury Officer's abstract of the account of the Committee for the year has been duly received and checked with the cash and pass-books, and found to agree therewith, except in respect of an uncashed cheque, which has been duly noted in the cash-book, and also minus the amount of imprest in the hands of the accountant at the close of the year.

That the vouchers for the payments of the year have been cancelled; that none but duly sanctioned expenditure has been incurred; and that in the case of original works the register of monthly expenditure shows clearly the amount of sanctioned estimate, the grant for the year; and generally that the work of the office has been performed with a due observance of the rules prescribed by Government.

NANDU LAL GHOSH,
RAM DOYAL MUKUMDAR,
MOHENDRA NATH NAG,
Members of S. A. C.

H. W. HILL,
Vice-Chairman.

Explanatory Note.

The excess expenditure of Rs. 114-8-6 under head "Establishment and Contingencies of Committee Office" is owing to the salary of the accountant and chuprasses for the month of September 1886 having been paid in September 1886 on account of the Doorgah Poojah holidays. Hence during the year, 13 months pay has been charged.

Under head "Percentage cost of Establishment, &c.," provision in the budget for the year under report is from the 1st October 1885 to 30th September 1886, whereas the excess payment is on account of the previous year's charges.

The extra expenditure on repair works is simply nominal. The Budget allotments are only for the year under report, whereas the expenditure includes payment on account of works done in the previous year.

The excess expenditure of Rs. 264-4-3 under head "Work Establishment" is owing to the salary of the establishment being paid for 13 months on account of the Doorgah Poojah vacation.

H. W. HILL,
Vice-Chairman.

SINGBHOOM DISTRICT.

Annual report of road operation during the cess year 1885-86 *ending* 30*th September* 1886.

1. *Midnapur road.*—The whole length of the road was kept in thorough repairs, the muddy portions of the first five miles, the 10th, 11th, 12th, and 15th miles, making up a total length of 13,439 feet, or two miles and-a-half nearly, were gravelled. All the repairs to bridges and culverts pointed out by the Superintending Engineer in his report of May 1885 have been particularly attended to, and nearly two-thirds of the work were completed during the cess year under report.

2. *Narsinggur-Baharagora road.*—The road was properly maintained, and four temporary bridges were thoroughly repaired.

3. *Barakur road.*—The whole road was properly looked after, and earthwork in the approaches of two bridges were completed. The heavy portions of the 4th, 5th, 6th, 8th, and 9th miles, making up a total length of four miles nearly, were improved by gravelling. All the repairs to the bridges and culverts pointed out by the Superintending Engineer in his report of May 1885, were executed.

4. *Bandgaon road.*—The whole length of this road was kept in thorough good repair. The bridges and culverts were repaired as far as funds permitted. One timber platform bridge in the 17th and another in the 20th mile were entirely rebuilt. The muddy portions of the 2nd, 3rd, 5th, 6th, 7th, and 8th miles, making up a total length of 2 miles and three quarters nearly, were gravelled

5. *Jyntgarh raod.*—This road had some parts of it very badly washed away by the rains. During the year under report these were repaired, and five masony bridges were substantially repaired. The whole road was repaired according to requirements.

6. *Bamonhati road.*—Petty repairs were executed wherever necessary. A culvert of two four-foot spans was throughly rebuilt.

7. *Khursawan road.*—The earthwork in the approaches of two masonry culverts in the first five miles were repaired. One new slabstone culvert was constructed in the 2nd mile.

8. *Village roads.*—The village road leading to Jamda was superficially repaired. Nearly nine miles of fair-weather roads were opened out from Bandgaon to Tadanghathee.

9. *Arboriculture.*—All existing plants in the Bandgaon road and some on the Barakar road were properly fenced in with bamboo enclosures.

10. *Establishment.*—The establishment consists of one sub-overseer, two road sirkars and an accountant; of these the sub-overseer and the accountant deserve special notice.

CHYEBASSA. UPENDRA NATH BANERJEE, B.C.E.,

The 24th January 1887. *District Engineer Singbhoom.*

Baboo Gopal Hari Mullick, District Superintendent of Police, and one of the *ex-officio* members of the District Road Cess Committee, reports on the merits of the District Engineer, Baboo Upendra Nath Banerjee, B.C.E.—"I have had occassion to visit several district roads, viz., the Midnapore Road, the Ranchi road up to Chakradhurpore, the Jyntgur road. There have been vast improvements noticed everywhere since last year.

In fact, these roads were in a wretched condition, and their present condition reflects great credit on the District Engineer who certainly deserves favourable mention in the annual report.

Chairman, District Road Cess Committee, Singbhoom.

EXPLANATION.

Administration.—The budget allotment under the head of administration has been exceeded by Rs. 4-15 only, as the pay of the clerk for the Committee's office for the month September 1886 was drawn by the end of September, which was due on the 1st October 1886.

Repairs.—The budget allotment for the repairs to Chakulea to Baharagura road has been exceeded by annas 13-9 only, a nominal sum, and explanation is not necessary.

W. HOPKINSON,
Deputy Commissioner and Chairman, District Road Committee, Singbhoom.

CHYEBASSA,
The 1887.

No. 250D.R., dated Ranchee, the 11th March 1887.

From—C. C. STEVENS, Esq., Commissioner of the Chota Nagpur Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith in original, the annual accounts and reports of the several District Road Committees of the Chota Nagpore Division, for the cess year ending 30th September 1886.

2. The subjoined statement shows the number of members constituting the Road Cess Committees in the several districts, and their attendance at meetings during the year under review as compared with the preceding year :—

Committees.	Cess year ending 30th September 1885.				Cess year ending 30th September 1886			
	Number of members.		Number of meetings held.	Average attendance at meetings.	Number of members		Number of meetings held.	Average of attendance at meetings
	Official.	Non-official.			Official	Non-official		
Hazaribagh	8	16	2	10 5	8	16	5	10·6
Lohardugga	6	12	7	7	4	5	10	5

Manbhoom	7	10	13	5	6	6	12	5
Singbhoom	4	11	8	7 5	4	11	8	5 6

3. The attendance of members was very unsatisfactory in Lohardugga, where half the number have ceased to be members through their absence from six consecutive meetings of the Committee.

4. The aggregate receipts of the year under review amounted to Rs. 2,05,539-10, inclusive of Rs. 36,599-11-5, the closing balance of the previous year, and of Rs. 13,384-2-10 the receipts under the heads of "Advances" and "Deposits" The total expenditure, including "Advances" and re-payments of dep sits, amounted to Rs. 1,63,081-7. There was thus a balance of Rs. 42,458-3 when the year ended.

5. *Original Works.*—The expenditure under the head of 'Original Works' amounted to Rs. 16,955-6-1, against Rs. 18,449-1-9 in the preceding year, and a total of Rs. 31,439 provided in the budget. The expenditure on original works was very small, and was confined in the three districts of Hazaribagh, Lohardugga, and Manbhoom. No original works were undertaken in Singbhoom, though in the budget estimates of the past year a sum of Rs. 11,742 had been provided for the purpose. In this district the sanctioned grants for the repairs of the roads noted on the margin were found to be inadequate, and accordingly the Committee, with the previous sanction of this office, transferred a sum of Rs. 5,140 from the provisions made for "Original Works" to "Repairs."

1. Midnapore road.
2. Khursowan ,,
3. Burrakur ,,
4. Jyatgurh ,,
5. Bundgaown ,,

6. In Hazaribagh the disbursements under this head amounted to Rs 5,893-9-3. The works executed consisted of a parapet on the Lalaband bridge in the Hazaribagh and Chattra road, the earthworks on its approaches, the completion of the earthwork on the Burhee and Gowan road, the sinking of a well at Lepo, the construction of a cart sarai at Bogodar on the Grand Trunk road, the construction of an inspection bungalow at Gowan, and of some culverts on the Giridi sub-divisional village roads.

7. In Lohardugga Rs. 9,531-15 was spent on original works—chiefly in the construction of a permanent masonry bridge on the Ranchi-Lohardugga road, and the building of a number of inspection huts.

8. In Manbhoom Rs 1,529-13-10 was spent in diverting the approach to the Subarnarekha river, in constructing two pucca wells, one in the Doobra cart serai, and the other in the Chandil bungalow compound, and in gravelling six miles of the Raghunathpur and Bancoora road beyond Gourangdih. A large quantity of materials for works is also said to have been collected in this district.

9. *Repairs.*—Under the head of 'Repairs' the total expenditure during the past cess year amounted to Rs. 82,773-1-10 against, 78,952-15-10 in the proceding year, and Rs. 82,453 the total sum originally provided in the budget estimate of the year.

10. In Hazaribagh the budget provision amounted Rs. 22,183, out of which, Rs. 18,334-0-10 was spent in the maintenance of roads, aggregating 352 miles in length. In Lohardugga the original budget provision for repair works amounted to Rs. 28,954, but subsequently, with the sanction of this office, a sum of Rs. 1,497-13-8 was transferred from the head of original works to repairs. The actual expenditure during the year amounted to Rs. 30,451-13-8, which was spent in maintaining nine roads of the sudder and about 54 miles of three of the more important roads of the Palamow sub-division. In Singbhoom the original allotment for repair works amounted to Rs. 7,006-12, but subsequently a further sum of Rs. 5,140 was allotted by transfer from original works under the circumstances explained in a preceding paragraph of this report. The expenditure, however, amounted to Rs. 8,190-6-6 only, which was spent in the maintenance and repairs of the roads noted on the margin.

Ditto to Bandgaon to Tasanghatee.

11. *Village roads.*—During the past year, except in Singbhoom, the improvement of village roads received a fair share of the attention of the District Road Committees. Out of a total sum of Rs. 14,997 provided in the budget estimates, Rs. 13,288 was actually spent within the year. In Singbhoom the sum spent on the maintenance of village roads amounted to Rs. 270-7 only. In Lohardugga a sum of Rs. 152-11-8 was spent in excess of the sum originally allotted in the budget estimate.

12. *Arboriculture.*—Under this head the efforts of the several District Committees have been mainly directed to the maintenance of trees which had been planted on the road sides in previous years.

13. *Establishments.*—The establishments employed under the several District Road Cess Committees are reported to have on the whole given satisfaction in the discharge of their respective duties. The late District Engineer of Lohardugga, Baboo Jogendro Chunder Ghose, alone has been found fault with by the Chairman of Lohardugga District Committee, owing to the fact of his having exceeded the budget allotments, and thus thrown the accounts into confusion.

H. S. BEADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than th re e feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5*th*.—The plots of land will be sold revenue-free to the highest bidders.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act, passed by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, received the assent of His Honour the Lieutenant-Governor on the 2nd April, 1887, and having received the assent of His Excellency the Governor-General on the 15th idem, is hereby published for general information:—

ACT No. III OF 1887.

An Act to amend the Calcutta Port Improvement Act, 1870.

Preamble. WHEREAS it is expedient to further amend the Calcutta Port Improvement Act, 1870: It is enacted as follows:—

Short title. I. This Act may be called "The Calcutta Port Improvement Act Amendment Act, 1887."

Commencement II. It shall be read with, and taken as part of, Bengal Act V of 1870 as amended by Bengal Acts VII of 1871, III of 1872, IV of 1880, I of 1881, and II of 1883, and it shall come into force on such date as may be fixed by the Lieutenant-Governor, not being more than three months after the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of sections 2, 4 and 14 of Act V (B.C.) of 1870 III. Sections 2, 4 and 14 of Bengal Act V of 1870 are hereby repealed. This repeal shall not affect the validity of anything done or suffered, or any right, title, obligation or liability accrued before the commencement of this Act.

Constitution of Commissioners. IV. There shall be thirteen Commissioners, that is to say—

six elected Commissioners,

six nominated Commissioners, and

a Chairman:

Provided that, when all the vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 have been filled under the first four clauses of section 10, not less than two of the Commissioners shall be natives of India residing in Calcutta or Howrah.

Election and appointment of Commissioners. V. Of the elected Commissioners—

four shall be elected by the members for the time being of the Bengal Chamber of Commerce,

one shall be elected by the members for the time being of the Calcutta Trades' Association, and

one shall be elected by the Commissioners of the Town of Calcutta,

in such manner as shall, from time to time, be determined, at a meeting of the members of the said Chamber, at a meeting of the members of the said Association, and at a meeting of the said Commissioners of the Town of Calcutta, convened in accordance with the rules at the time in force in this behalf.

The President of the said Chamber, the Master of the said Association, and the Chairman of the said Commissioners of the Town of Calcutta shall each make a return to the Lieutenant-Governor of the name of every person so elected by the said Chamber, the said Association, and the said Commissioners of the Town of Calcutta, and such return shall be published in the *Calcutta Gazette*.

VI. In the event of default being made by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta in electing any Commissioner under the last preceding section within the period hereinafter prescribed in this behalf, it shall be lawful for the Lieutenant-Governor to appoint a person, and the person so appointed shall be deemed to be a Commissioner as if he had been elected by the Bengal Chamber of Commerce, the Calcutta Trades' Association, or the Commissioners of the Town of Calcutta, as the case may be.

In default of election, Lieutenant-Governor to appoint.

VII. The nominated Commissioners and the Chairman shall be appointed by the Lieutenant-Governor by notification in the *Calcutta Gazette*.

Appointment of nominated Commissioners and Chairman.

VIII. The Lieutenant-Governor may, from time to time, appoint one of the Commissioners to be Vice-Chairman, and may cancel such appointment.

Appointment of Vice-Chairman.

IX. Notwithstanding anything in this Act contained, the Commissioners appointed under section 2 of Bengal Act V of 1870 shall continue to hold office until the expiry of the term prescribed in section 3 of the said Act.

Commissioners under Bengal Act V of 1870 continued.

X. Each of the first four vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 caused by Commissioners, who at the time of their appointment were members of the Bengal Chamber of Commerce, ceasing to act, shall be filled by election by the members for the time being of the Bengal Chamber of Commerce in the manner provided in section 5.

First elections and appointments under this Act.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of 1870 is caused by a Commissioner, who at the time of his appointment was a member of the Calcutta Trades' Association, ceasing to act, such vacancy shall be filled by election by the members for the time being of the Calcutta Trades' Association in the manner provided in section 5.

When a vacancy in the number of the Commissioners appointed under Bengal Act V of 1870 is caused by the Chairman of the Commissioners of the Town of Calcutta ceasing to act, such vacancy shall be filled by election by the Commissioners of the Town of Calcutta in the manner provided in section 5.

All other vacancies in the number of the Commissioners appointed under Bengal Act V of 1870 shall be filled by appointment by the Lieutenant-Governor in the manner provided in section 7.

And thereafter all vacancies caused by elected Commissioners ceasing to act shall be filled by election under section 5, and all vacancies caused by nominated Commissioners ceasing to act shall be filled by appointment under section 7.

XI. All vacancies in the number of the Commissioners, whether appointed under Bengal Act V of 1870, or elected or appointed under this Act, shall be filled by election or appointment, as the case may be, within one month.

Time within which elections and appointments are to take place.

XII. Any casual vacancy in the number of the Commissioners occasioned by death, resignation or disqualification shall be filled up in the same manner, and subject as far as may be to the same provisions, as are applicable in the case of original elections and appointments of Commissioners.

Casual vacancies.

XIII. In section 3 of Bengal Act V of 1870, before the word "re-appointed" shall be inserted the words "re-elected or;" in section 5 the words "as hereinbefore provided" shall be omitted, and before the word "appointed" shall be inserted the words "elected and;" in section 3 and section 12, before the word "appointed" shall be inserted the words "elected or," wherever the same occurs; and in section 12 and section 13, before the word "appointment" shall be inserted the words "election or," wherever the same occurs.

Amendment of sections 3, 5, 12 and 13 of Act V (B.C.) of 1870.

PROGRESS REPORT OF THE BENGAL ECONOMIC AND ART MUSEUM.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 3rd May 1887.

RESOLUTION.

READ—

The Progress Report of the Bengal Economic and Art Museum for the year 1886-87.

This Report was submitted to Government by the late Committee of the Bengal Economic and Art Museum on the 31st March 1887, and on the following day the Committee was dissolved after making over to the Trustees of the Indian Museum the collections of the Bengal Economic and Art Museum. These collections the Trustees of the Indian Museum were empowered by Act IV of 1887 to receive, and they will for the future be in charge of the Assistant Curator, an officer who has been appointed with the sanction of the Secretary of State, and who will act under the control of the Trustees.

The work of consolidating the collections was continued during the year. As was noted in last year's Resolution, the collections are divided into four sections, viz., Artware, Economic, including timber, Ethnology, and Industrial. In the Artware section in which the specimens are classified in 27 groups and number about 8,670, much work was done in systematising the arrangements and in labelling the specimens with available information. Show-cases were bought for the better exhibition of specimens. In the Economic section, which has 17,785 specimens, exclusive of timber, arranged in 13 classes, the collections were in part re-arranged. Two hundred and one new specimens were received in this section during the year, and a considerable number of specimens which had become worm-eaten and decayed were destroyed. A large portion of the timber collection was handed over to the Government of India to be used in making the timber trophy for the London Exhibition. The Ethnology section has been expanded by taking into it a large hall belonging to the temporary buildings. New glass cases have been provided for the exhibits in this section, and much work has been done in labelling and re-arrangement. In the Industrial section, which contains almost all the presentations made to the Bengal Government by exhibitors of the British and Foreign Courts at the Calcutta Exhibition of 1883-84, no change was made. The Committee had charge during the year of the accounts and correspondence work connected with the exhibits from these Provinces sent to the London Exhibition.

More than four hundred thousand persons visited the Museum during the year, the monthly average being 34,000 as against a monthly average attendance of 24,500 in the preceding year. The number of visitors was greatest in October and February; in the former month the Durga Pooja holidays were observed, and in the latter month 6,723 persons visited the Museum on the day of celebration of the Jubilee of the Queen-Empress.

The Lieutenant-Governor takes this opportunity of publicly acknowledging the services rendered by the members of the late Committee, and in particular by Mr. Horace Cockerell, their Chairman, ably assisted by Mr. Alexander Pedler, their very efficient Secretary. The valuable collection entrusted to the Committee was found to be in excellent order when it was transferred to the Trustees of the Indian Museum.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the reading during the same period for the past [illegible] years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The normals are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past [illegible] station in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 29th April 1887.

CALCUTTA, *the 22nd April* 1887.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 29TH OF APRIL 1887.

During the previous week a rapid increase in the intensity of the hot weather conditions had taken place in Bengal. A rapid fall of the barometer had also occurred, which had been greatest in the neighbourhood of the hills in North Bengal. In fact, at the commencement of the present week, pressure was comparatively low at many of the North Bengal stations, though perhaps the low pressure area could scarcely be called a distinct barometric depression. This low pressure area was apparently gradually filled up, and towards the close of the week under review pressure became comparatively low over parts of Western and Central Bengal, the band of low pressure still stretching towards North Bengal. This distribution of pressure has caused the wind system blowing over the province to be somewhat unusual. South-westerly winds have prevailed over practically the whole of Orissa and South-West Bengal, and even in parts of East Bengal, the prevailing wind direction for the whole of the week at Jessore having been westerly, while even at Noakholly south-westerly winds were reported on every day of the week. In East Bengal winds have been generally south, in North Bengal south-east, and in Behar usually easterly, and finally in Chutia Nagpur winds have been westerly and south-westerly Owing probably to the rapid increase in temperature which had taken place in the previous week, and to the high temperatures which obtained at the commencement of the present week, and which were giving unusually large differences of temperature, and perhaps also to the distribution of pressure above described, a very rapid increase in the strength of the southerly winds blowing at the head of the Bay took place, and particularly during the middle and towards the close of the week these winds were of most unusual force. This is shown by the fact that the wind velocity at Saugor Island for the whole week has averaged more than 20 miles an hour, while on the 28th and 29th it averaged 23 miles an hour; also at Calcutta for the same days the wind velocity averaged 15 miles an hour, while at False Point and Gopalpore it averaged about 20 miles an hour. At the same time the moisture brought up by the strong sea winds commenced to give heavy rain over parts of North and East Bengal, and some districts of these divisions received copious rainfall towards the close of the week, while on the last day, owing to the slightly disturbed conditions above alluded to having passed towards Central Bengal, rain showers became rather frequent in parts of Central and South-West Bengal.

Pressure—Variations during the week have been decidedly large. Following on the rapid fall of the barometer in the previous week there was a rapid increase, on the 23rd, generally amounting to from a tenth to a twentieth of an inch; a further considerable general rise took place on the 24th and 25th, but this was then succeeded by a fall which lasted till the close of the week, the fall being brisk on the 27th, when at some stations it almost equalled a tenth of an inch. Such rapid fluctuations as these always show that atmospheric conditions are unsettled, and that this was the case has been previously shown by the occurrence of heavy rainfall over parts of the province. Though the fluctuations of pressure during the week have thus been large, the variations of the mean pressure from the normal for the week are comparatively small, and the largest (trustworthy) variations are an excess of about two hundredths of an inch at False Point, Chittagong and Dacca. At most stations the variations of the mean pressure from the normal do not amount to more than a few thousandths of an inch.

Temperature.—The changes of temperature have not been so large during the present week as they were in the former one. At the commencement, usually, temperature was very high over the whole province, it then in many cases fell during the middle of the week, and rose again during the last two days. At other stations, particularly those in the western districts, temperature has risen steadily almost throughout the week Generally speaking the mean temperature of the whole province for the week has been about one degree above the normal, but the distribution has been a little unequal; for while the temperature of South-West and East Bengal and of Chutia Nagpur has been about 2° above the normal, over the remainder of the province an almost normal temperature has prevailed. The excess temperature has again been more noticeable in the night or minimum temperatures than in the day temperatures. This can be seen in the table below, which gives the temperature data for eight representative stations, and in these cases, while the mean night temperature for the week has been 2° in excess of the normal, the day temperature has been only 0·3° in excess.

Table showing the excess or defect of the actual temperature from the normal for the week ending 29th April 1887.

Some very high maximum temperatures have been reported during the week, and thus in Orissa, at Cuttack, maximum temperature was 108·4° on the 23rd; in South-West Bengal, at Raniganje, on the 28th, temperature was 109·1°; in South Behar, at Gya, on the 26th, it was 107·6°, and in Chutia Nagpur, at Ranchi, on the 28th, it was 105°. The highest maximum temperature registered at Calcutta during the week was 101·9° on the 23rd.

Rainfall.—Owing to the disturbed conditions above described, considerable amounts of rain have fallen in parts of North Bengal and in some of the districts in East Bengal during the greater part of the week, while on the 29th showers were reported in Central and South-West Bengal. The heaviest and most general rainfall has occurred in the districts near the hills in the north and east of the province. Thus the district of Rungpore reports an average fall of 4·74 inches, that of Julpigoree one of 3·12 inches, and the Darjeeling district a fall of 2·10 inches. Again, in the Mymensingh district there has been a general fall of 0·92 inch, and in the Dacca district a fall of 0·57 inch. The other localities which have received moderate amounts of rain are the districts of Midnapore, Bancoorah, Krishnagur, Furreedpore, Serajgunge and Rampore Bauleah. At some stations in North Bengal the falls have been particularly heavy, and thus at Kurigram in the Rungpore district 11·75 inches of rain fell during the week—6·65 inches falling on the 27th and 3·02 inches on the 28th, making a total of nearly ten inches of rain in two days. The following are also some heavy falls which have been reported:—On the 23rd instant, at Alipore Doar (Julpigoree district) 3 inches, at Meckligunge (Cooch Behar districts) 2·89 inches, and at Kalimpong (Darjeeling district) 1·92 inches; on the 25th at Buxa (Darjeeling Hills) 3·20 inches; on the 27th at Bhowanigunge (Rungpore district) 2·58 inches, at Ulipore (Rungpore district) 2·65 inches, at Dinhatta (Cooch Behar district) 2·64 inches, and at Matabhanga (Cooch Behar district) 2·15 inches, and on the 29th at Durgapore (Mymensing district) 2·66 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 29th of April 1887:—

MEMORANDUM.

DURING the week ending 16th April 1887, births and deaths were registered in the principal Municipalities in Bengal at the rates, respectively, of 18·5 and 26 7 per 1,000 of population, against 19·9 and 30·7 per 1,000, respectively, during the preceding week ending 9th April, indicating a considerable falling off in the registration of both the events, particularly of deaths.

2. The following Municipalities returned the highest proportions of births and deaths :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Comillah	65·5	Naraingunge	95·2
Beauleah	57·8	Gya	52·6
Bali	38·6	Suburbs of Calcutta	49·4
Chittagong	37·6	Comillah	46·2
Durbhanga	30·7	Serampore	39·3
Naraingunge	29·0	Utterpara	37·7
		Durbhanga	29·9

3. The following table denotes that, as compared with the outcome of the preceding week, there was a diminution of mortality from cholera and fever, but no noticeable differences in the casualty-rates from the rest of the diseases—*vide* figures given below :—

	Ratio per *mille* during the weeks ending—	
	16th April 1887.	9th April 1887.
Cholera	9·4	11·2
Small-pox	·2	·5
Fever	7·9	9·5
Bowel-complaints	3·0	2·8
Injury	·3	·2
Other causes	5·9	6·5

4. Of the death-causes above named, cholera and the diseases coming under the head of "Other causes" caused the highest mortality in the following Municipalities, and the rest of them did not prove conspicuously fatal anywhere, excepting bowel-complaints, which appears to have prevailed with marked severity in the Utterpara town, where the death-rate stood at 28·3 per 1,000 of population :—

Cholera.	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Naraingunge	70·4	Comillah	23 1

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not [illegible] recorded under the authorized form of age classification

NOTIFICATION.

The 9th May 1887.—The following communication, received from the Government of India, Home Department, dated the 16th April 1887, is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

No. 88, dated Simla, the 13th April 1887.

Endorsed—By the Government of India, Home Department (Sanitary).

COPY forwarded to the Government of Bengal (Financial Department), for information.

No. 36, Statistics and Commerce, dated India Office, London, the 3rd March 1887.

From—Her Majesty's Secretary of State for India,
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD herewith, for your information, a copy of a letter from the Foreign Office, dated the 16th February, and enclosure, relative to the removal of quarantine against Calcutta.

Dated the 16th February 1887.

From—JAMES FERGUSSON, ESQ.,
To—The Under-Secretary of State for India.

I AM directed by the Secretary of State for Foreign Affairs to transmit to you, to be laid before the Secretary of State for India in Council, the accompanying extract from a report as marked in the margin, reporting the discussion at the meeting of the Egyptian Board of Health which resulted in the removal of quarantine against Calcutta.

Extract—Dr. Mackie in Consul Cookson, No. 2, Commercial.

Extract.

"I HAVE the honour to report that an ordinary meeting of the Maritime and Quarantine Sanitary Board was held on 1st February.

"The British Delegate communicated a telegram from Calcutta, showing the rapid diminution of cholera in that city, and the actual small mortality with no epidemic tendency for some time past.

"He, in consequence, proposed that the existing quarantine against arrivals from Calcutta should be suppressed. This proposition was strongly opposed by the Delegates of Austria, Germany, and Spain, who insisted that Indian ports should be treated in the same manner as European ports, and that quarantine should be maintained while cholera existed. The Delegates for France and Russia, though not taking part in the discussion, expressed their intention to vote against any proposition. On being put to the vote, 10 voted for suppression of quarantine, 7 against, and 1 abstention. Seven of those who voted with me in favour of my proposition were Egyptian and Anglo-Egyptian Delegates, without whose assistance my proposition would have been rejected. There is still a strong desire with several of the European Delegates to maintain perpetual quarantine against India."

NOTICE TO MARINERS—(No. 21.)

EAST COAST OF INDIA.

BAY OF BENGAL.

MADRAS COAST.

THE following information has been received from Commander Carpenter, R. N., in charge of the India Marine Survey :—

Rockingham Patches.—Lying close off the Coast, 25 miles South of Madras, consist of a few rocky heads inside the 10-fathom line. The shoalest water found on them was 11 feet and the outermost danger, 3¼ fathoms rock, lies on the following bearings, at one-and-a-quarter miles off the shore :—

Red light tower ...	...	S. W. by S.,	distant	5¼ miles.
Tripalur Hill ...	...	N. W. by W.	„	4¼ „
Extreme of Covelam point	...	N. ¼ E.	„	6 „
Finger Peak ...	...	S. W. by W.¾ W.	„	11¼ „

Vessels should not get into less than 12 fathoms in passing this danger. Tripalur Hill is low, and has a temple on it that looks like a bungalow.

Finger Peak, which is not conspicuous when bearing northward of West, is the southernmost part of all the high land visible.

The Red light tower is a conspicuous object by day. The distance off shore judged by eye is very deceptive.

Pulicat shoals.—The 4-fathom mud bank reported by the S. S. *Clan Mackintosh*, in June 1884, to exist in the vicinity of these shoals, and six miles off the land, was lately searched for in vain by H. M. I. M. S. *Investigator*, and may be removed from the charts.

Bearings are magnetic.—See Admiralty Charts, Coromandel Coast, Sheets III and IV, Nos. 71*c* and 71*d*.

By direction of the Government of Bengal,

Port Officer of Calcutta.

HUGLI, *the 30th April* 1887.

Government Engineering College, Seebpore.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 25th May 1887. The Session begins on Monday, the 6th June 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F.A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department no being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June 1887. They must send in their applications before 25th May 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight.

Further particulars will be supplied on application to the Principal.

				Minimum required in all papers collectively.

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burmah only. Candidates will not be examined in any of the Calcutta offices.

(*a*).—Todhunter's Mensuration for Beginners.
(*b*).—1. "Book-keeping" by Ball and Hamilton; 2. Book-keeping by double and single entry by W. Inglis Chambers' Educational Course).

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10, and the following certificates. Certificates may be submitted in original or true copies, attested by an officer of the Engineer or Accounts Branch, but no certificate will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).

(2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ).

(3) Certificate that the application is in candidate's handwriting. It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons, who are already employed in the department.

Beerbhoom Collectorate, the 25th April 1887.

F. H. SKRINE, Offg. Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bazitpur-Dalsingserai section of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale on the 5th day of July 1887 at office of Collector of Durbhunga. The purchasers of the several plots of land will be subject to the following conditions:—

1. The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.
2. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
3. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the 1st succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
4. The balance of purchase-money due under the 3rd condition may be paid either to the Collector or into the Government treasury, Durbhunga.
5. The plots of land will be sold revenue-free to the highest bidder.
6. The purchasers shall be put in possession on receipt of the orders of the District Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

H. S. BEADON, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Mokamah Extension of the Tirhoot State Railway, in the district of Durbhunga, will be put up to sale at the office of the Collector of Durbhunga on the 5th day of July 1887.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the lands closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The balance of purchase-money due under the third condition may be paid either to the Collector or in the Government Treasury at Durbhunga for lands situated in the Durbhunga district.

5*th*.—The plots of land will be sold revenue-free to the highest bidders.

6*th*.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.
